Introduction

What Is an Employee Development Plan?

What Is an Employee Development Plan?

Key Benefits of Employee Development Plans

An employee development plan is a structured approach used by organizations to support workforce [learning and development](#).

There is a plethora of compelling reasons why investing in your employees' development pays off. We present the top advantages for both employers and employees below.

Changing the block

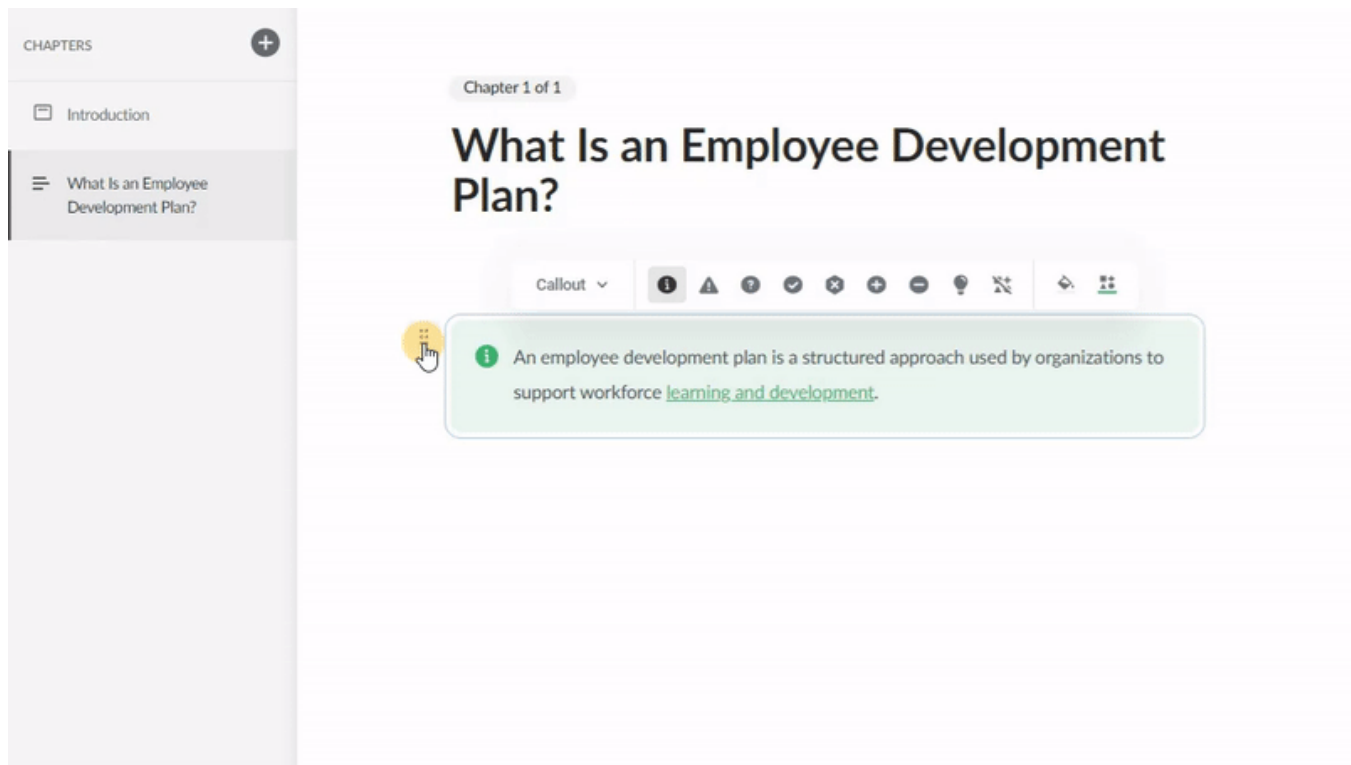

Replace one object with another. For example, an ordered list can be changed to a bulleted list or text replaced with a quote.

Click on the [blocked URL](#) icon. In the dropdown menu, select the **Change block** command.

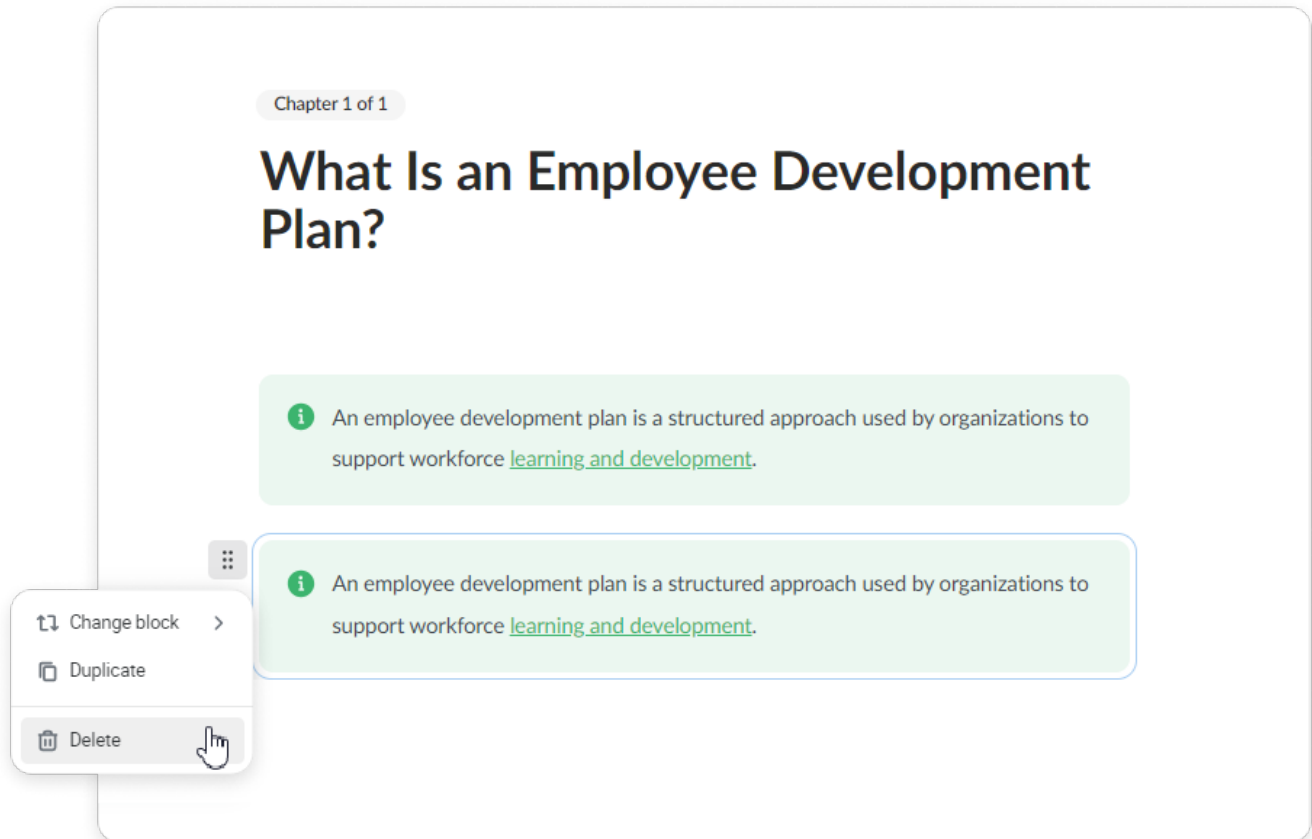

Duplicating

You can duplicate objects. Click on the [blocked URL](#) icon **Duplicate**. A copy will be added below.

Deleting

To delete an object, click on the [blocked URL](#) icon. Then, in the dropdown menu, select the **Delete** command.

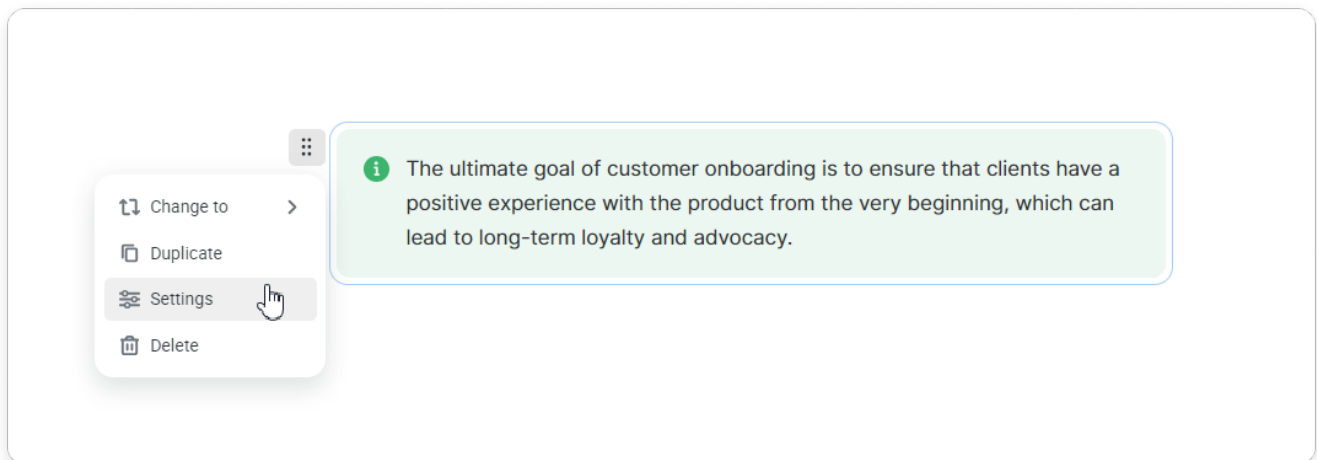

Settings

In the Settings sidebar, authors can modify the background color of a block and fine-tune the margins above and below it. Additionally, they can also edit flashcards, notes, dividers, tables, and format text. There are 2 ways to open the settings sidebar:

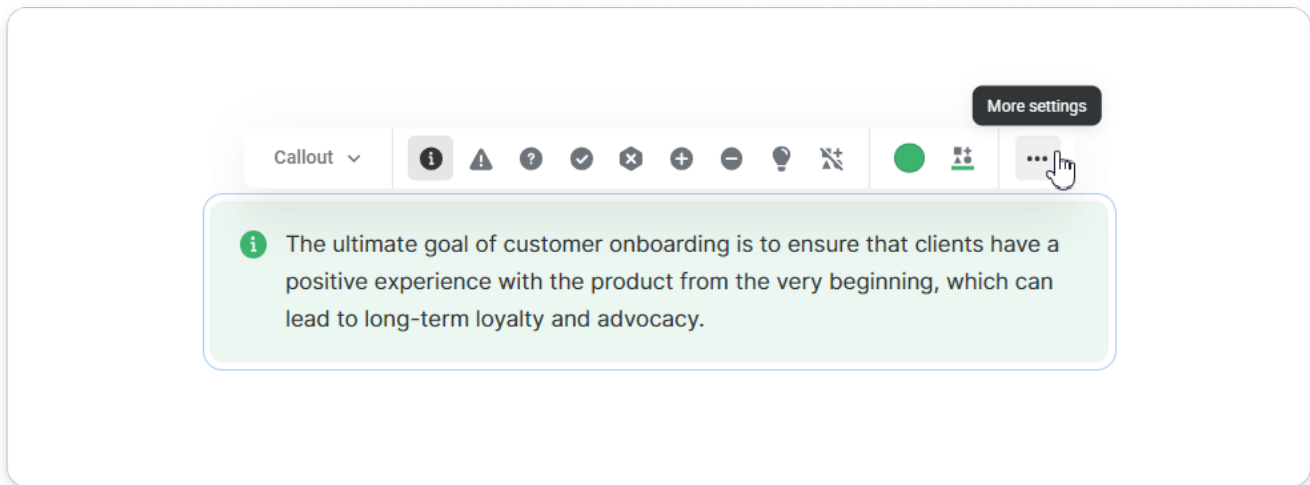

The first way

Hover over the block and click on the [blocked URL](#).

The second way

Select the block and click on the  icon that appear in the toolbar.

Done! You'll see the settings sidebar on the right.

What Is Customer Onboarding?

Customer onboarding is the process of getting new clients acquainted with your product or service. It encompasses a range of activities and interactions designed to welcome, educate, and empower clients.

Callout ▾

 The ultimate goal of customer onboarding is to ensure that clients have a positive experience with the product from the very beginning, which can lead to long-term loyalty and advocacy.

Why is it important? 🧐

Why Is Customer Onboarding Important?

Customer onboarding is crucial for businesses that aim to gain and keep customers. It sets the stage for the entire customer relationship and makes a positive first impression. Without proper onboarding training, businesses risk facing significant challenges that can negatively impact their success.
