## Page Design

You can design the page to portray your own style.

1. Click on the page's **Settings** icon.

2. Under the **Design** tab, select the desired accent color, as well as the heading and body text fonts.

	Body text font	Montserrat	~		
			A Set as default theme		

Great! You've changed the page's design.

## **Default Theme**

You can set the accent color, and heading and body text fonts as a default theme. In this way, every subsequent page will be created using that saved theme.

1. Click on the page's Settings icon.

2. Under the **Design** tab, select the desired accent color, as well as the heading and body text fonts.
