Main Settings

In this tab, you can specify the order in which your learners will take the page, turn on the enumeration of the chapter, and enable a button that takes readers to a new chapter. Also, you can disable text selection and copying.

The 5 Best Customer Training Software & LMS Platforms

Main   Design   More

Completion Order
Choose the order in which reader will view this content.

Sequential	Free
Readers can only view a chapter after completing the previous one.	Users can navigate chapters in any order. ✓

Page Navigation
Users can click through content using the sidebar menu.

Sidebar   **Single Page**

Chapter Numbering   On ⬤
Display current chapter number

Button to move to the next chapter   On ⬤
Display a button at the end of each chapter to move to the next one

Disable text selection and copying   Off ◯
Prevent learners from copying texts from the page.

Completion Mode	Specify whether your users will have to view page chapters in their original order or if they can view the pages in the order they prefer.
Page Navigation	Select the way your learners can view a page: with a sidebar or as a single page with no extra navigation tabs.

Chapter Numbering	Turn chapter numbering on and off by dragging the slider. This is how the chapter list looks with numbering enabled: Chapter 1 of 3 **What Is Customer Training Software?**
Button to move to the next chapter	Add a button to move to the next chapter at the end of a previous chapter. If the option is on, the bottom of the chapter will look like this: **Next Chapter** Next: What Is Customer Training Software?
Disable text selection and copying	Enable this option to prevent learners from copying texts from the page.
