

Timeline Properties

To modify timeline properties, click the **Properties** button on the toolbar.

Timeline properties will open in a new window. Here you can change the default fonts and customize the look of your timeline.

Main Properties

Property	Description
Display a period description	Select this checkbox to show a description when a period is selected on the timeline.

Fonts

Property	Description
Title font	Choose a font for the timeline title.
Content font	Choose a default font to be used for text in your timeline. When you change the default font, the program will ask if you want to apply the change to all content. You can always change this font for selected text using the drop-down font menu on the toolbar.

Colors

Choose one of the predefined color themes or click the **Customize** button and fine-tune the colors manually.
