Publishing to HTML5 and Combined Mode

iSpring QuizMaker 7 allows you to build quizzes in Flash, HTML5 or in the Combined mode (Flash + HTML5). Now, you can create quizzes that will be supported across multiple devices: computers, tablets and smartphones.

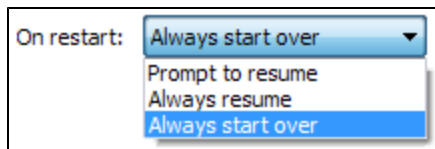

Experience API Support

Publish quizzes that support Experience API to get more information and feedback from your eLearning materials. iSpring gives you the chance to take all advantages of the emerging xAPI learning technology.

Save/Recover State of a Quiz

Thanks to extended functionality of the "Resume" option, you can start taking the quiz on one device and continue completing the quiz on another one, with progress saved.

Updated Quiz Editor

iSpring's quiz editor has been updated to provide more flexible and user-friendly quiz authoring. The new interface remains very easy to learn and use, while offering many new features.

The screenshot displays the Quiz Creator application interface. The top menu bar includes 'Home' and 'Help'. Below it, a ribbon contains various tool icons categorized into 'Question', 'Clipboard', 'Text', 'Quiz', and 'Publish'. The left sidebar shows a 'Questions' list with 11 items, including 'Welcome to the US Country Study', 'Question Group 1', and several numbered questions. The main workspace is titled 'Multiple Choice Question' and contains a text box with the question: 'The Statue of Liberty, proud lady of welcome for millions of newly arrived Americans is a gift of (choose the name of the people)'. To the right of the question text is a 'Picture' tab with a thumbnail of the Statue of Liberty. Below the question text is an 'Answer' section with a table of choices. The 'Correct' column has a radio button selected for 'the French'. The 'Premise' column lists the other options: 'the Swedish', 'the English', and 'The Spanish'. Below the table is a text input field for 'Type to add a new item'. At the bottom, there are tabs for 'Options' and 'Feedback and Branching'. The 'Feedback and Branching' tab is active, showing 'Feedback' set to 'By Question' and 'Branching' set to 'By Question'. It also includes fields for 'Correct' (Well done!), 'Incorrect' (Sorry, the answer is incorrect...), and 'Partial' (Partially correct) feedback, as well as a 'Branching' dropdown set to 'By Question' with a list of possible next questions.

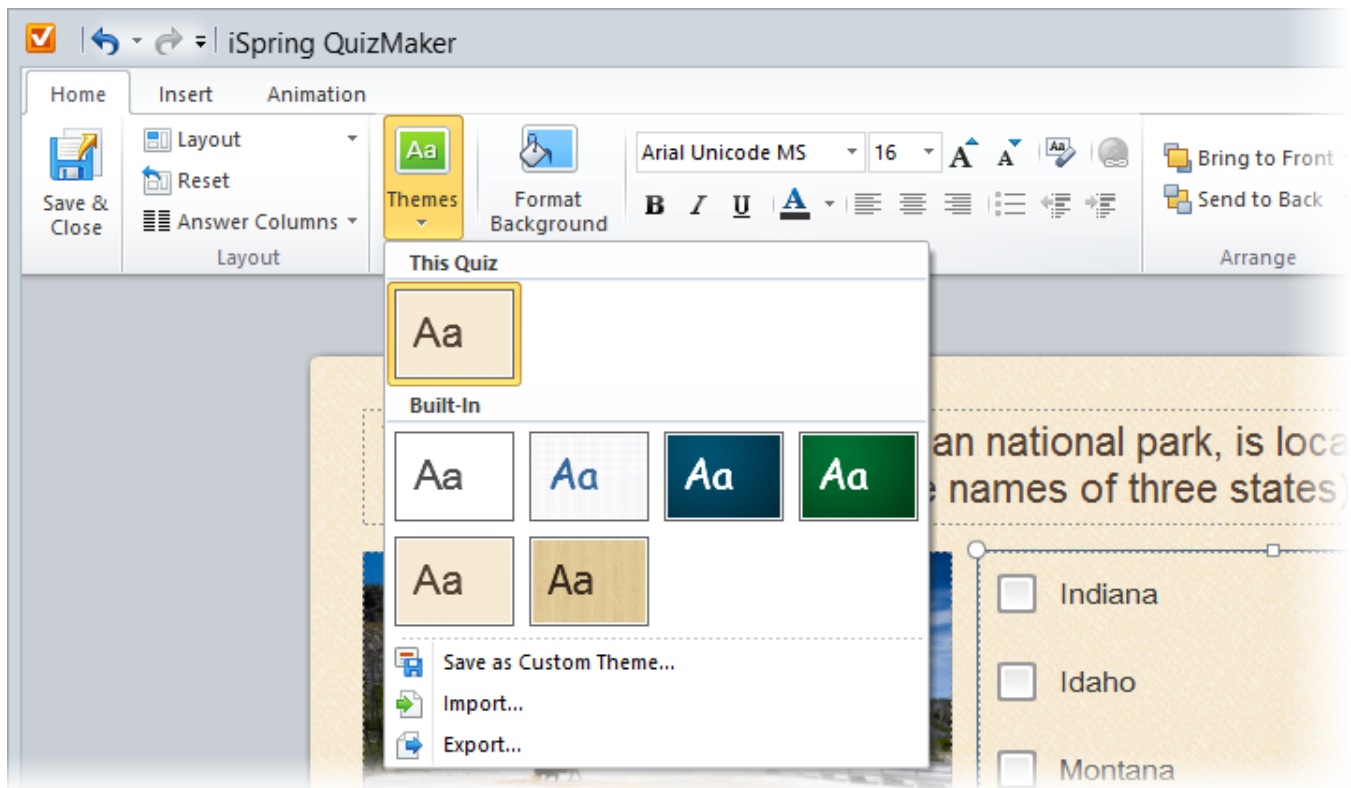

Designing Quiz Layout

Now it's up to you where quiz elements – questions, images, answer choices – are located. Be creative!

[blocked URL](#)

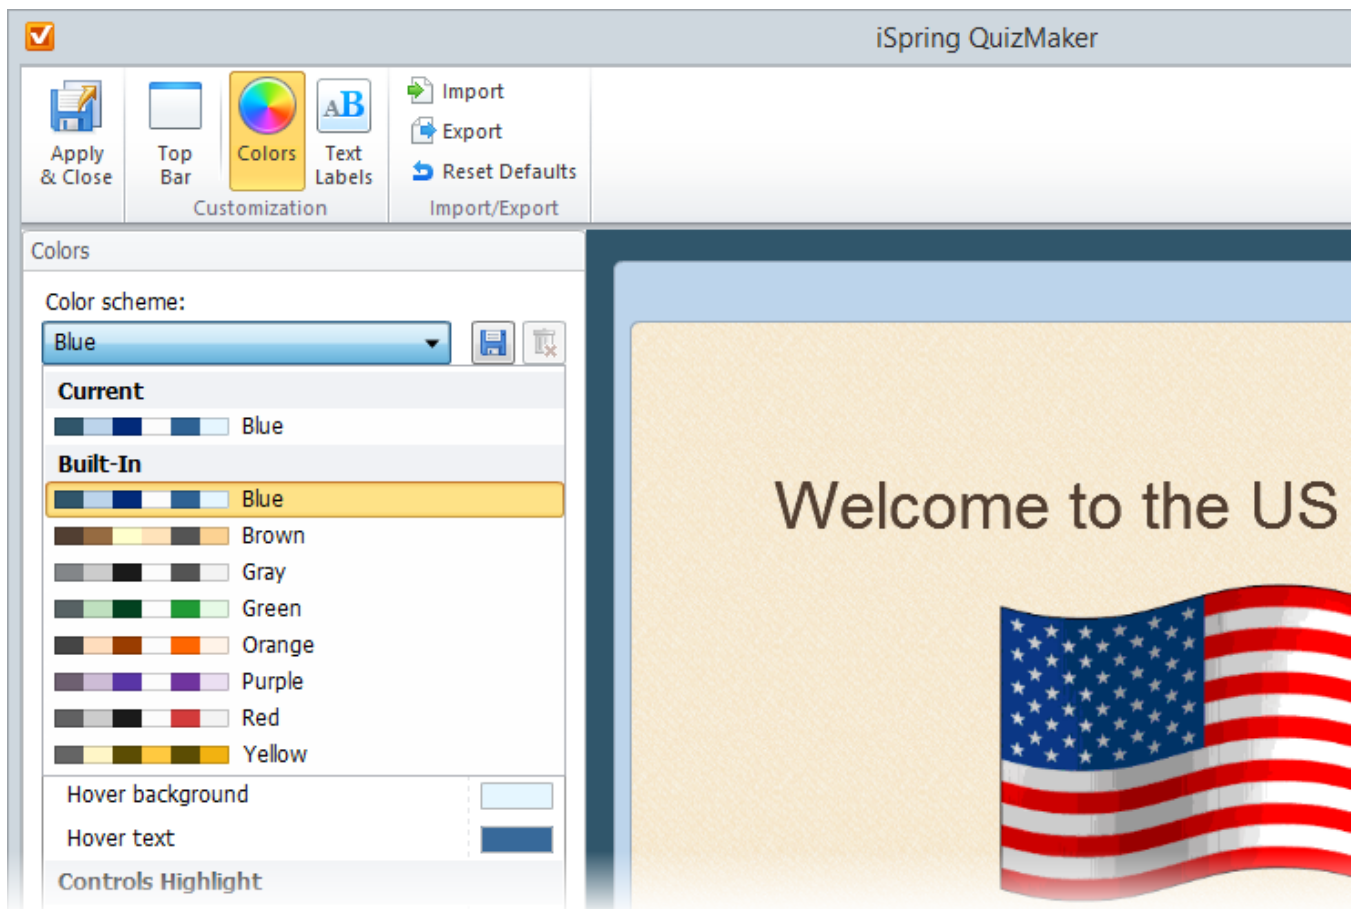

Building Custom Themes

You can make your quiz look and feel exactly the way you want. Customize the fonts in your theme, change theme background, add images to make it look more personal.

Advanced Player Customization

Ensure the perfect look of your quizzes on all devices. You can flexibly customize the new player to prepare your HTML5 and Flash quizzes for convenient playback on desktops, laptops, Android tablets and iPads.

Question Groups

Groups of questions can be very useful if your quiz includes sets of questions on several different subjects.

Questions	Question Group
<input type="text" value="Search"/>	Group name: Main Group
Welcome to the US Country Study <i>Intro Slide</i>	Total questions: 11
Main Group 6	Question Pool
1. In 1492 Christopher Columbus landed ... <i>True/False</i>	<input type="radio"/> Include all questions from the group
2. Christopher Columbus Discovers Amer... <i>Info Slide</i>	<input checked="" type="radio"/> Select random questions: <input type="text" value="6"/>

Questions Linking

You can better control quizzes' playback by linking questions together or attaching them to the beginning or the end of your quiz.

1. In 1492 Christopher Columbus lan... <i>True/False</i>
2. Christopher Columbus Discovers A... <i>Info Slide</i>
3. The Statue of Liberty, proud lady ... <i>Multiple Choice</i>
4. Statue of liberty <i>Info Slide</i>
5. Yellowstone, the oldest American ... <i>Multiple Response</i>
6. Yellowstone, the oldest American ... <i>Info Slide</i>

Locking Answer Choice Position

You can randomize the answers in the Multiple Choice or Multiple Response question still having certain answer options locked in their position. It is useful when one of the choice is 'Other' or "No Answer" that is usually added at the end of the list.

	Correct	Premise		
...	<input type="checkbox"/>	Indiana		α^2
...	<input type="checkbox"/>	Idaho		α^2
...	<input type="checkbox"/>	Montana		α^2
	<input checked="" type="checkbox"/>	All above		α^2

Feedback and Branching by Answer

By customizing branching scenarios and feedback messages, you can make great interactive quizzes with non-linear navigation. Now, you can add custom feedback messages and set up branching depending on user answers.

Correct	Premise		Branch to
<input checked="" type="radio"/>	Texas	 α^2	9. Match the names of t... ▾
<input type="radio"/>	Yellowstone	 α^2	5. Yellowstone, the oldes... ▾
<input type="radio"/>	Great Lakes	 α^2	14. The Great Lakes of t... ▾

Enhanced Multimedia Settings

QuizMaker's advanced multimedia settings allow you to play audio in the background, turn off video controls and more.

☒ Enable playback controls
☒ Start playback automatically
☒ Limit the number of playbacks:

Time Limit for Questions

You can set the allowed time to answer a question. After the time runs out, the question will be automatically submitted with the selected answer.

Question 1 of 11 ▾
Point Value: 10 | Total Points: 0 out of 10 |  04:23

In 1492 Christopher Columbus landed on Bahama island of Guanahani, thinking that he had found Asia.

☐ True

☐ False

Penalty for Incorrect Answers

Instructors have the ability to deduct points for incorrect quiz answers. Negative points may be used in all types of questions in graded quizzes.

Questions Import from Excel

iSpring QuizMaker lets you import questions from an alternative source. If you have a ready question database, just import your questions from an Excel file instead of having to re-enter all the information again.

	A	B	F	
1	Question Type	Question Text	Answer 1	
2	TF	In 1492 Christopher Columbus landed on Bahama island of Guanahani, thinking that he had found Asia.	*True	False
3	MC	The Statue of Liberty, proud lady of welcome for millions of newly arrived Americans is a gift of (choose the name of the people)	*the French	the Swed
4	MR	Yellowstone, the oldest American national park, is located in three of the following states (tick the names of three states):	Indiana	*Idaho
	TI	Margaret Mitchell wrote just one book - yet _____ remains a best-selling novel, still in print more than 60 years after its debut.	Gone With the Wind	gone with

Animation Effects for Answer Choices

Apply various animation effects to answer choices if you want to draw users' attention. You can choose effect options, specify the start time and length of an animation.

Request information from the course takers

The Quiz Taker Form allows to collect detailed information on a person who is going to take your quiz.

[blocked URL](#)

Using Variables

The info you have collected with the Quiz Taker Form can be saved in "Variable" and used both in the quiz and in the quiz report.

Multiple Choice Text Question

%USER_NAME%, choose one correct answer in each drop-down list.

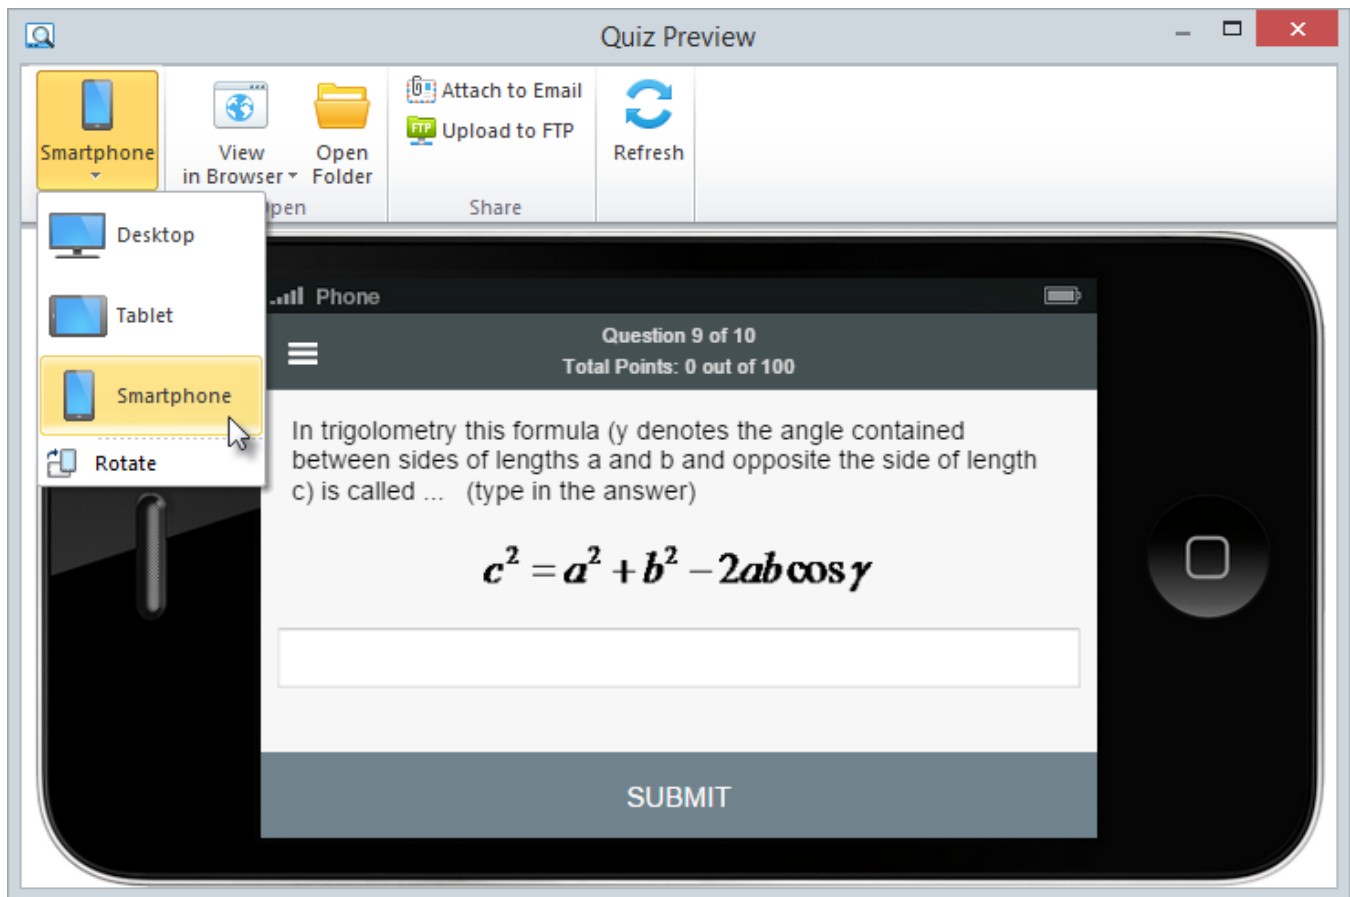

Spelling

iSpring QuizMaker will help you find and correct spelling mistakes in your texts. Support of custom dictionaries allows to add various dictionaries including idioglossaries.

Viewing the quiz on various devices

The updated Preview mode allows you to preview the quiz in a variety of modes: on mobile device, tablet or desktop.

Uploading source files to iSpring Learn

When publishing the project, you can upload source files to iSpring Learn. It allows you to collaborate with your colleagues while working on the project.
