iSpring Pro Guide

iSpring Pro lets you create high-quality interactive Flash and HTML5 e-Learning presentations from your PowerPoint content with audio and video narrations.

iSpring Pro produces high-quality Flash and HTML5 content that preserves every aspect of your initial PowerPoint presentation, even the new features of PowerPoint 2013 and trigger animations. It converts animations and transition effects, images and videos.

You can read about the HyperPoint™ and AccuPoint™ technologies that makes it all possible on our web site.
