# Statement

With a statement, you can cite an expert on the subject of the page, highlight an important point, or summarize a part of the text.

1. Click ⊕ and choose **Quote**.

2. Next to a vertical line, type the text and press **Enter** on the keyboard.

The statement will be inserted into the page.

You can also replace one object with another. For example, a text can be changed to a quote.

Click on the blocked URL icon. In the dropdown menu, select the **Change to** command.

What Is SCORM?

SCORM means **Shareable Content Object Reference Model**. It is an international standard for e-courses. If your course is published in the SCORM format, you can be sure that almost any learning management system (LMS) will recognize it.
