

Adjusting Slide Duration

You can set timing for automatic slide advance in the field to the right of the slide advance type. It's also possible to specify duration for a selected group of slides in the corresponding text field on the toolbar.

Time formatting works similar to PowerPoint.

Note: Slide advance time also depends on "Minimal slide duration" that can be specified on the [Playback and Navigation](#) tab of the Publish window.

The screenshot shows the 'Presentation Explorer' window with a toolbar at the top and a table of slide settings below. The toolbar includes buttons for 'Save & Close', 'Hide Slide', 'Promote Demote', 'On-Click Auto', 'Branching', and 'Lock'. A 'Slide Duration' field is set to '00:10.00'. The table below has columns for '#', 'Title', 'Branching', 'Lock', 'Presenter', and 'Layout'. Slide 2 is selected, and its duration is set to '10.0s'. A red callout points to the 'Slide Duration' field, and another red callout points to the 'On-Click Auto' button.

#	Title	Branching	Lock	Presenter	Layout
1	PowerPoint to Flash Excellence	Default	None	Geoseffe Tembor	No Change
2	Animations: Entrance Effects	10.0s	Default	Geoseffe T...	Full
3	Animations: Exit Effects	Default	Geoseffe T...	Maximized Video	
4	Animations: Emphasis Effects	18.1s	Default	Geoseffe T...	Maximized Video
