

# Starting Trial of iSpring Suite

You can start using the trial version of iSpring Suite right away after installation. The trial version of iSpring Suite is the best way to evaluate all features of the product. This fully functional version produces content of the same quality as the full version. You can use the trial for 14 days. After the trial period is over, you will need to activate the product with the license key, received after the purchase.

## The Trial Version Limitations

The only limitations of the trial version are a 14-day limit and an evaluation banner covering a part of the presentation area as you can see in the picture below.

The screenshot shows a presentation slide with a light blue background. At the top left, there is a video thumbnail of a woman speaking. To the right of the thumbnail is the iSpring logo and a banner that reads 'Created with iSpring Suite EVALUATION VERSION'. The main title of the slide is 'Share Your Content Anywhere Right Away'. Below the title, there is a large image of a tablet and a smartphone displaying the same presentation content. The tablet screen shows a slide titled 'Solar Energy Advantages' with a list of 10 fundamental advantages and disadvantages of having solar panels. The smartphone screen shows a similar slide with a different layout. To the left of the main content area, there is an 'OUTLINE' sidebar with four items: 'Share your content anywhere right away', 'Why iSpring is better?', 'Excellent service', and 'Join iSpring'. At the bottom of the slide, there is a dark blue navigation bar with a play button, a progress bar showing '4 / 7' and '00:05 / 00:21', and buttons for 'PREV' and 'NEXT'.

To start using iSpring Suite without any trial limitations, you need to [purchase a license and activate it](#).
