

Controlling Player Layout

iSpring Converter Pro allows you to set a layout for each slide individually. When you specify a layout for a slide, you can choose one of four values:

- No change
- Full
- No sidebar

To specify a player layout for a given slide:

1. Select a slide in the Presentation Explorer.
2. Choose a **layout** from the corresponding drop-down menu on the toolbar
or
Double-click the layout icon of a given slide and choose a layout from the drop-down menu.

Note: If you want to change the player layout for several slides, select them while holding down the **SHIFT** or **CTRL** keys and then choose their layout from the **Layout** drop-down menu on the toolbar.

Presentation Explorer

Save & Close | Hide Slide | Promote | Demote | On-Click | Auto | Slide Duration: 00:11,57 | Branching | Lock | Presenter | Layout

#	Title	Advance	Branching	Lock	Presenter	Layout	Playlist
1	iSpring Converter Pro	4,0s	Default		None	No Change	None
2	iSpring Converter Pro	11,5s	Default		Monique ...	Full	None
3	Getting Started	10,0s	Default			Sidebar	Background music
4	Create Your Course in PowerPoint	20,0s	Default		Monique ...	Full	Background music
5	Set Up Presentation Structure	13,0s	Default		None	No Change	None

Choose a player layout for the selected slides

Double-click and choose a player layout for a slide
