Recording Audio in QuizMaker 8.3

Now, iSpring QuizMaker offers a new way to add audio to your quiz questions. You can easily record and edit your narrations directly in iSpring QuizMaker.

iSpring Audio Editor in QuizMaker

The Audio Editor in iSpring QuizMaker 8.3 provides all the functionality you need to create an audio narration fast and easy: noise reduction, cutting selected segments of the clip, adjusting the volume, etc

Improved Feedback in QuizMaker

Now you can record audio right within the add feedback window or import pre-recorded audio files. Moreover, you can enhance your feedback with images or equations and customize the color scheme of the feedback window.

Microphone Setup Wizard

With the new Microphone Setup Wizard, you can setup your mic and achieve the best sound when using the selected microphone type. [See more here ->](#)

Microphone Setup Wizard

Select a recording device type

 ☒ **Headset Microphone**
One of the best methods of voice recording. Located near the speaker's mouth, decreases the amount of background noise.

 ☐ **Desktop Microphone**
Average quality of voice recording. Located on a table a short distance away from the speaker.

 ☐ **Webcam**
Low quality voice recording. Webcam or microphone built into any device, increases the amount of background noise.

 ☐ **Other**
Other recording devices.

Video Lecture Player Customization

The updated Video Lecture player is even more flexible. Now you can choose a color scheme of the player elements, edit all texts and button labels, and configure its layout.

Bookmarking a Quiz Question

The new **Bookmark a question** feature allows users to mark certain questions in the question list when they take a quiz. There can be several reasons to bookmark a question. A student might want to go back and check the answer before submitting the entire quiz.

#	Question	Points
1.	Drag the words and drop them to the appropriate places	10
▶ 2.	Howard Hughes stayed at the Desert Inn for so long that he was asked to leave. What did ...	10
3.	Arrange these events of the Las Vegas history in the correct order	10
4.	This legendary musician performed 837 consecutive sold out shows at the Las Vegas Hilton:	10
5.	Las Vegas Boulevard, where The Strip is located, has had several names. Three of them are:	10
6.	Las Vegas casinos never use dice with rounded corners.	10

Cropping Images in Quizzes

You can use the new cropping tool to trim an image or delete unwanted parts of an image in a quiz or book interaction. Cropping removes or masks areas of a picture by reducing the vertical and horizontal edges.

Feedback on a Product

Leaving feedback on a product is now easier than ever. The fastest way to leave feedback is simply to click the **Feedback** button on the product toolbar.

iSpring Free Trial without Activation

Starting a free trial version of iSpring Presenter 8.1 doesn't require a trial key. With this update, you get faster access to all the new features of iSpring Presenter.

Open Sans Font in iSpring Players

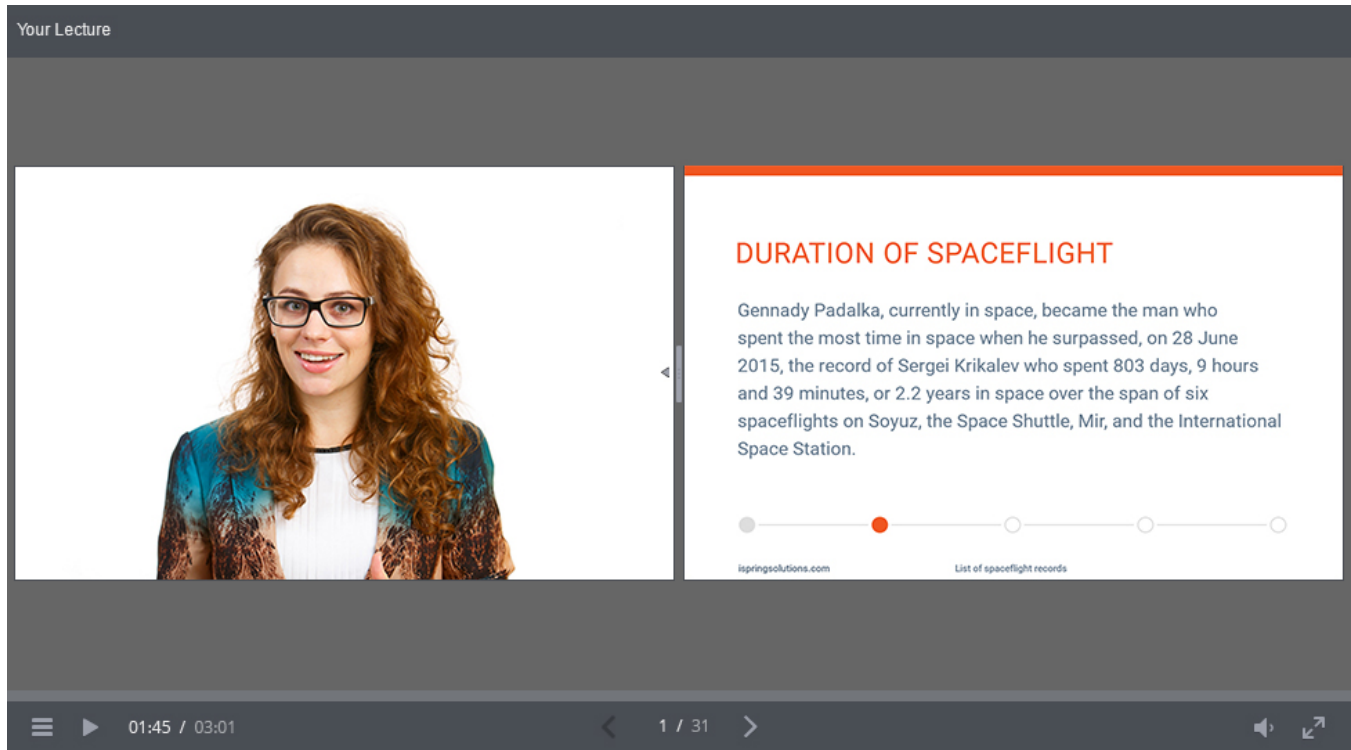

Open Sans is now used in all iSpring presentation players, providing you with a fluent cross-platform experience. Previously, we used Arial.

iSpring Viewer is now iSpring Play

iSpring Viewer was renamed to iSpring Play. Starting from version 8.1, anyone who has the link can view your iSpring Cloud content with iSpring Play, download your presentation, quizzes and simulation for offline viewing without the Internet connection.

Brand New Video Lecture Player

The new 50/50 Video Lecture Player optimally combines presentation slides and explainer video in one window. The player is highly configurable. It allows Plays to rearrange the size of slides and video on the fly.

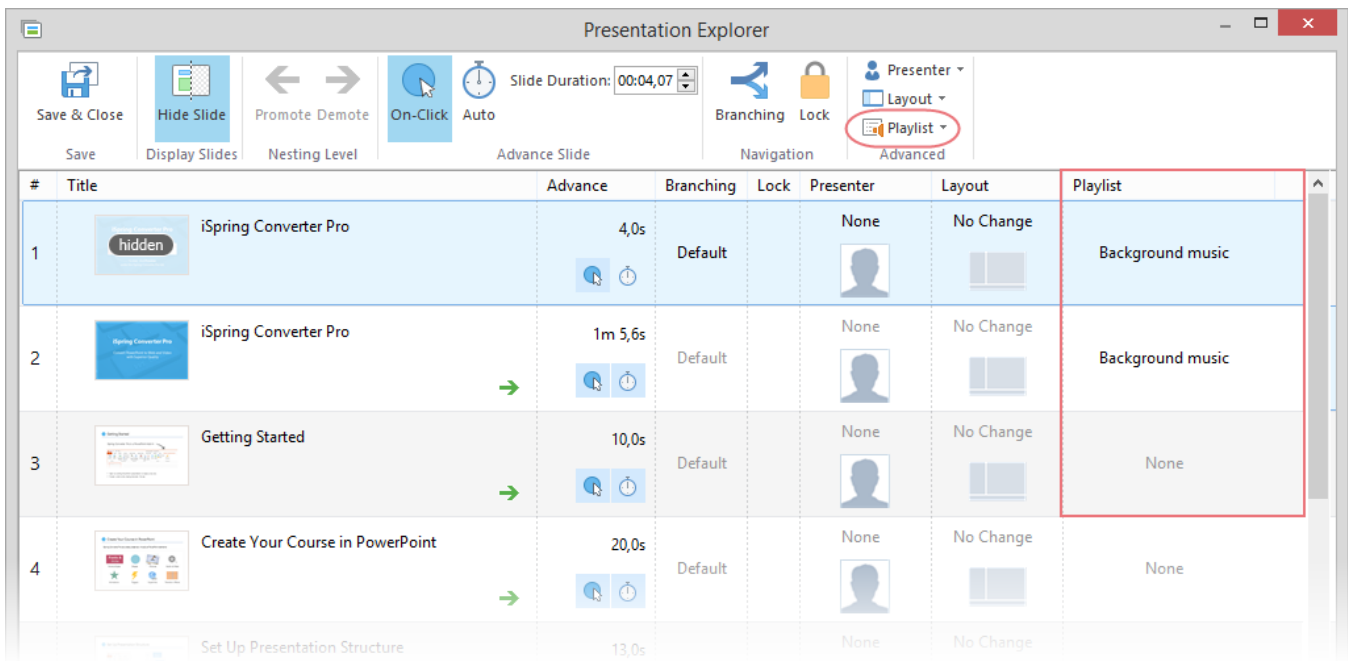

Updated Audio and Video Editor

The Audio and Video Editor in iSpring Presenter 8 provides all the functionality you need to create effective and dynamic video lectures fast and easy: noise reduction, cutting selected segments of the clip, adjusting the volume, etc.

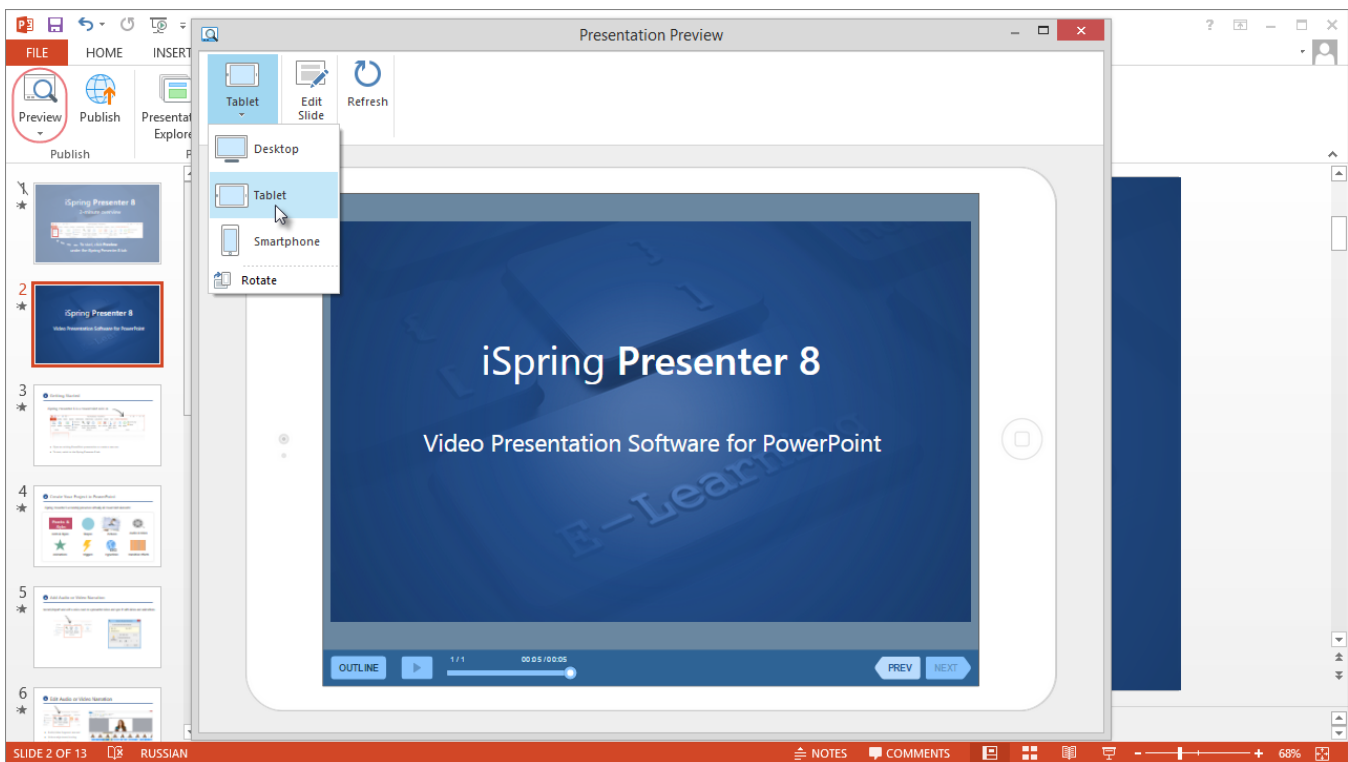

Playlists for Background Music

Now you can create audio playlists and apply playlist to any presentation slide using the enhanced Presentation Explorer interface. Moreover, you can adjust the background audio volume and use the Loop playback feature.

New Preview Window

With the enhanced Preview window, you can preview the entire presentation or a particular slide on any device even easier. Just click the **Preview** button on the toolbar to check how it works.

Free Mobile App for iPhone

iSpring Play is a free app that allows users to save presentations and e-Learning courses right on their devices for viewing later, even without an Internet connection. Do you like iSpring Play on your iPad? Then you'll love iSpring Play on your iPhone! Now, you can offer your users the option to open their courses right on their iPhones in a new and improved interface

The improved version of iSpring Play allows users to download a full list of content items simultaneously and still view a course at the same time in an adaptive "Miniskin" Player.

Publishing Presentations to iSpring Cloud

By uploading your video presentation to the [Cloud](#), you open up four additional options to share your iSpring content: direct link, email, social media, and embed code. Plus, you can use iSpring Cloud as a secure content storage protected on multiple backup servers.

Enhanced Quiz Maker Interface

Authoring and editing quizzes and surveys is easier than ever before, thanks to the new, enhanced interface in iSpring QuizMaker 8, part of the new all-in-one e-Learning authoring toolkit, iSpring Suite 8.

Designing question slides, either one at a time or en masse, is a snap with the Slide View mode built right in alongside the Form View mode.

Publishing Quizzes to iSpring Cloud

Now, you can publish your quizzes directly to [iSpring Cloud](#) hosting and sharing platform with a single click from the QuizMaker interface!

"Undo all actions" option in editor window

Any edits you make can be undone and redone by using either Quick Access menu or keyboard shortcuts **CTRL+Z** and **CTRL+Y**.

New enhanced toolbar with detailed quiz info

The enhanced status bar at the bottom of the Quiz Maker Editor displays essential info about the selected slides. Moreover, you can zoom in and out of the slide area using the slider in Slide View mode.

Option "Do not apply penalty for unanswered questions"

The name of the option speaks for itself. There will be no penalty for leaving a question unanswered. On the other hand, a penalty can be still applied for incorrect answers.

The image shows a 'Quiz Properties' dialog box with a sidebar on the left and a main content area on the right. The sidebar has four items: 'Main', 'Navigation', 'Question Defaults' (which is highlighted with an orange background), and 'Result'. The main content area is divided into two sections: 'Question Options' and 'Feedback'. In the 'Question Options' section, there are fields for 'Points' (set to 10) and 'Penalty' (set to 0). Below these is a dropdown for 'Attempts' set to 1. There are five checkboxes: 'Shuffle answers' (checked), 'Allow partial answer' (unchecked), 'Do not apply penalty for unanswered questions' (checked and circled in red), 'Allow user to skip survey questions' (unchecked), and 'Limit time to answer the question' (unchecked). At the bottom of this section is a 'Time limit' field set to 1 minute and 0 seconds. The 'Feedback' section has a checked checkbox for 'Provide feedback for graded questions'. Below this are three rows of feedback text boxes: 'When the answer is correct:' with 'Correct' entered, 'When the answer is incorrect:' with 'Incorrect' entered, and 'When the answer is partially correct:' with 'Partially correct' entered. Each text box has an 'Apply to All' button to its right. At the bottom right of the dialog are 'OK' and 'Cancel' buttons.

Option to display results in Points or Percentage

With this new option, you can choose how you want to display results on the final slide: points and/or percentages.

Changing fill color of radio buttons, checkboxes and hotspot markers

If you'd like to use custom fill color for radio button and check box controls, select a new color in the Player Color Settings. Additionally, you can select a custom fill color for hotspot markers.

Las Vegas Boulevard, where The Strip is located, has had several names. Three of them are:

- ☒ 5th Street
- ☒ State Route 6
- ☒ Arrowhead Highway
- ☐ Highway 61
- ☐ Bourbon Street

Submit

What is the tallest hotel building in Las Vegas?
Place a hotspot marker at the correct image.
