FAQ title: iSpring Kinetics FAQ

Question title: How does the content quality influence the size of the output Flash file?

Audio: ● No audio

Arial   12   B I U A

Embedded audio files greatly increase the file size. iSpring decreases the size dramatically by converting it to Flash format using effective compression methods available in Flash technology. iSpring Kinetics lets you control compression level and thus the size of your published interactions and courses. The higher compression level, the smaller your published Flash files. To manage compression, click **"Publish"** button on the Kinetics toolbar and then adjust image/audio compression options on the **"Compression"** tab. You can read more about compression on the iSpring web site.
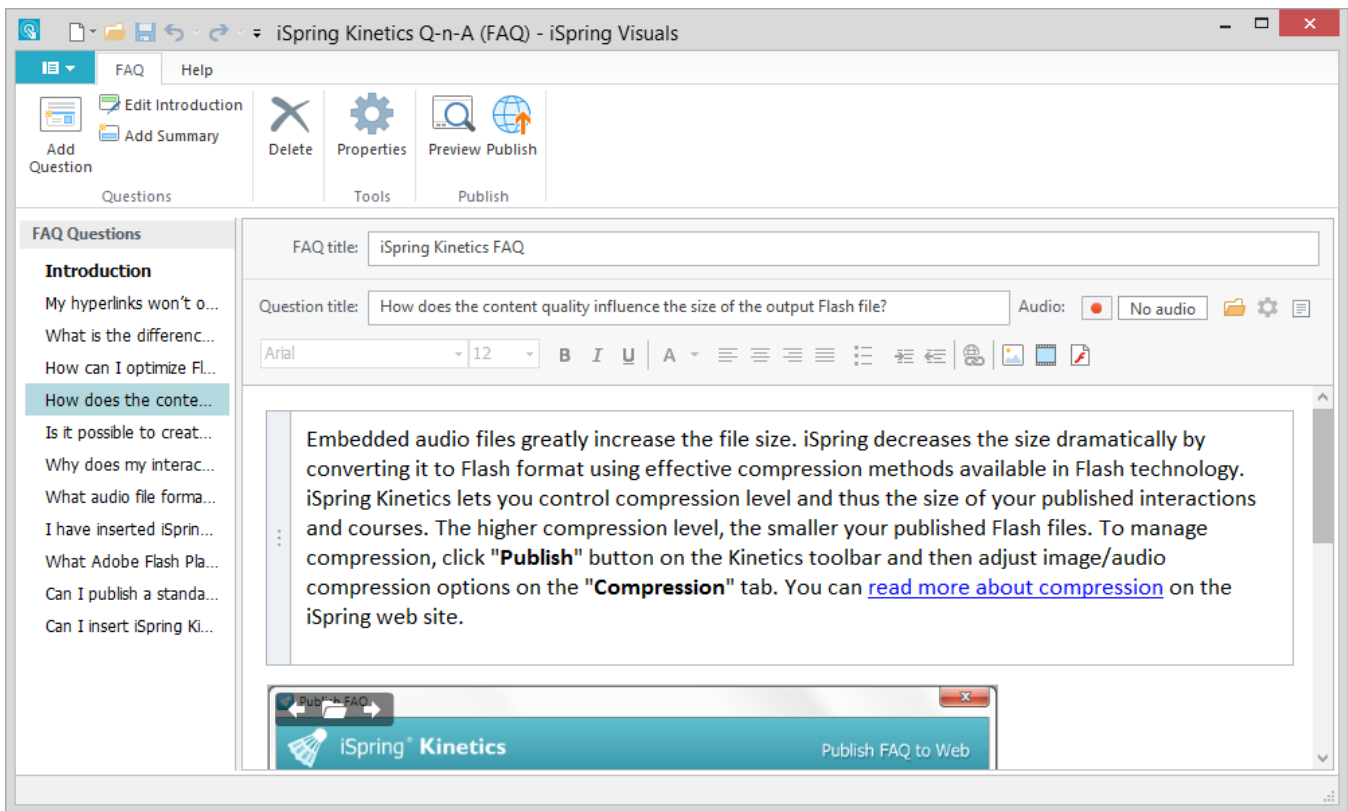

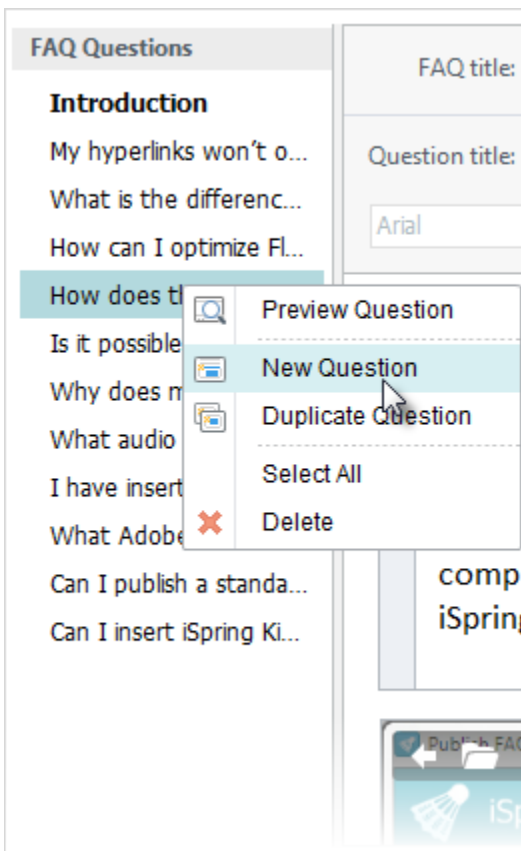

Publish FAQ

iSpring® **Kinetics**   Publish FAQ to Web

1. Click the **Add Question** on the toolbar.

   or

   Right-click any place on the **FAQ Questions** pane and choose **New Question** in the contextual menu.
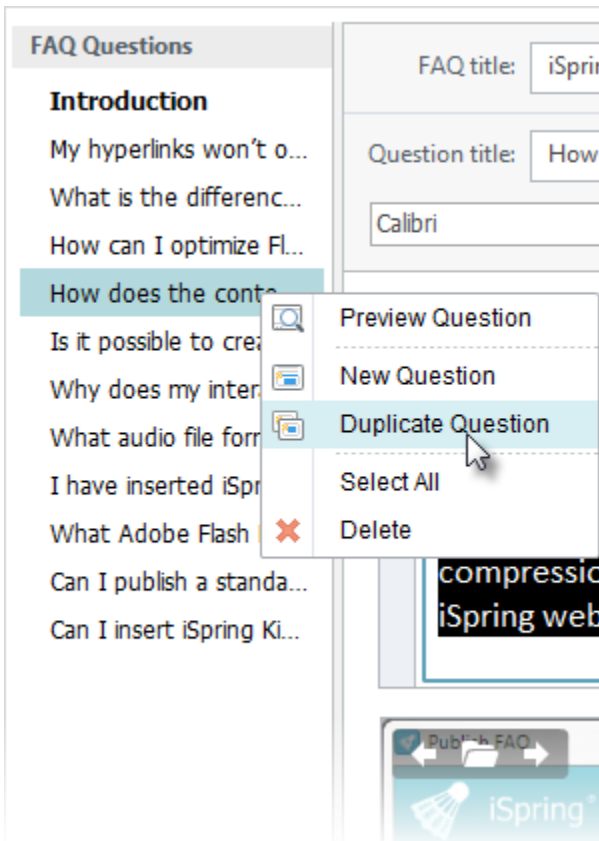

2. Type a question title in the corresponding field.
3. Enter a description, add pictures, Flash movies, video and/or audio narration.

Duplicating Questions and Answers

1. Select one or multiple questions on the **FAQ Questions** pane.
   To select several items, click them while holding down the **Shift** or **Ctrl** button.

2. Right-click the selected questions on the **FAQ Questions** pane and choose **Duplicate Question** in the contextual menu.

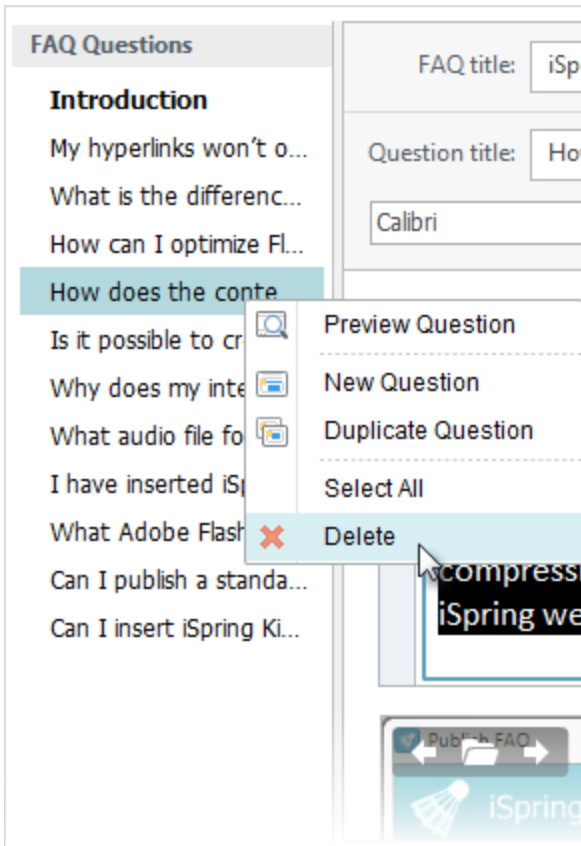

The selected questions will be duplicated along with the added texts, images, audio, video and Flash files. Introduction and summary cannot be duplicated.

Deleting Questions and Answers

1. Select a FAQ entry, which you want to delete, on the **FAQ Questions** pane.
   Note: To select several items, click them while holding down the **Shift** or **Ctrl** button.
2. Click the **Delete** button on the toolbar or press the **Delete** key on your keyboard.

   or

   Right-click the selected entries on the **FAQ Questions** pane and choose **Delete** in the contextual menu.

When your FAQ is ready, give it a name and proceed to publishing.
