Getting a List of Users and their Points

Method: **getGamificationPoints**

Permissions to Run the Request

Account Owner, *Account Administrator*s, *Department Administrator*s, or users with a custom role.

Department Administrators and users with a custom role can get a list of users and their points belonging only to the department they manage and its sub-departments.

Request Parameters

Parameter	Type	Description
token (required)	string	Access token. You can obtain a token by making a request.
userIds (optional)	string	Filter by user ID. You can get points for certain users.

Possible Errors

Error	Description
Permission denied	The user doesn't have enough permissions to handle the request. For example, *Department Administrator* can't get a list of users from a department they don't manage.
