

# Getting a List of All Account Courses

AVAILABLE WITH BUSINESS SUBSCRIPTION

## Request: **GET /content**

1. You will retrieve a list of course that were originally uploaded to the account. Content copied from other courses won't appear in the response.
2. The response contains only the original created or downloaded versions of courses and content.

Let's suppose that when creating Course B, you copied a quiz as a [linked copy](#) from Course A. Only the original quiz from Course A will be included in the response.

Note that the way you create the copy of the content is important:

- If it is a copy, then the data about the content will be shown in the response.
- If it is a linked copy, the information will not be shown.

3. Learn how to get a list of all course modules in the [Getting a List of Course Modules](#) article.

## Permissions to Run the Request

*Account Owner, Account Administrators, Department Administrators*, as well as *Course Authors* and *users with a custom role* with [access](#) to the project containing this course.

For users with a custom role, allow "View and enroll users into training programs."

### Learning Management

- ☒ View and enroll users into training programs
- ☐ Grade assignments

### Knowledge Base

- ☐ View content in the "Knowledge Base"
- ☐ Download and edit content in the "Knowledge Base"
- ☐ Remove content from the "Knowledge Base"

## Request Headers

Header	Description
Authorization (required)	Access token. You can obtain a token <a href="#">by making a request</a> .

## Response Headers and Parameters

Header	Description
contentItem	An array that contains data about the learning track, course, or content
contentItemId	ID of the learning track, course or content
title	Title of the learning track, course or content
subtitle	Subtitle of the learning track, course or content

description	Description of the learning track, course or content
userId	ID of the user to whom the learning track, course or content is assigned
addedDate	Date of addition of the learning track, course or content
viewUrl	Link to view the learning track, course or content
