

# Bookmarking a Question

The new **Bookmark a question** option allows users to mark certain questions in the question list when they take a quiz. There can be several reasons to bookmark a question. A student might want to go back and check the answer before submitting the quiz.

To bookmark a question, go to the question and click the  **Bookmark** button next to the question number. The flag icon will appear in the question list next to the selected question.

Howard Hughes stayed at the Desert Inn for so long that he was asked to leave. What did he do?

When you are ready with the answer choice, you can unflag a question. To do it, go to the question and click the **Bookmark** button again.

Bookmarking is available when **answers are submitted all at once**. When questions are submitted one at a time, there is no reason to bookmark a question since you get an immediate feedback after you answer it.

To choose the **Submit all at once** mode, open the Quiz Properties and go to the [Navigation](#) tab.

The image shows a 'Quiz Properties' dialog box with a sidebar on the left and a main content area on the right. The sidebar contains four tabs: 'Main', 'Navigation' (which is highlighted with an orange background), 'Question Defaults', and 'Result'. The main content area is divided into two sections. The top section, titled 'Navigation', contains a 'Preset' dropdown menu set to 'Submit all at once'. Below this, there are two radio button options: 'Submit one question at a time' and 'Submit all at once'. The 'Submit all at once' option is selected and is enclosed in a red rectangular box. Under the 'Submit all at once' option, there is a checked checkbox labeled 'Allow user to postpone questions' and an unchecked checkbox labeled 'Allow user to finish without answering all questions'. The bottom section, titled 'Question Pool', contains three options: 'Include all groups from the quiz' (selected), 'Select random groups: All out of 1' (with a dropdown menu showing 'All'), and 'Shuffle questions from the selected groups' (unchecked). At the bottom right of the dialog box are 'OK' and 'Cancel' buttons.
