

Activating iSpring TalkMaster License

To start using iSpring TalkMaster without the trial period limitations you need to obtain a product license and activate it:

1. In the **Help** tab of the product toolbar click the **Activate** button to launch the iSpring TalkMaster Activation Wizard.

2. If you already have the iSpring TalkMaster license, enter your license key and click **Next** to proceed with entering **Registration Details**. To purchase the iSpring TalkMaster license, click **Purchase Online**.

- At the next step, you can specify the user's name and the company name. This information will be displayed in the **About** window of iSpring TalkMaster.

The image shows a Windows-style dialog box titled "iSpring TalkMaster Activation Wizard". The main heading is "Enter Registration Details" with a subtext "These registration details will be displayed in your iSpring product" and a yellow key icon. Below this, it says "This product is registered to:" followed by two text input fields. The first field is labeled "Name:" and contains "John Smith". The second field is labeled "Company:" and contains "iSpring". At the bottom left, there is a checked checkbox labeled "Attempt to activate my license online now". At the bottom right, there are four buttons: "< Back", "Next >" (which is highlighted with a dashed border and a mouse cursor), "Cancel", and "Help".

After you complete steps 1,2,3, you can choose whether to activate your license online or offline.

Online Activation

The fastest way to activate the license is to go through the online activation procedure. To do it, keep the **Attempt to activate my license online now** option checked and click **Next**. Online activation requires an active Internet connection. It usually takes just a few seconds to complete the online activation process.

The image shows a Windows-style dialog box titled "iSpring TalkMaster Activation Wizard". It has a standard title bar with a minimize button, a maximize button, and a close button (red X). The main content area is titled "Enter Registration Details" and includes a subtitle: "These registration details will be displayed in your iSpring product". To the right of the subtitle is a yellow key icon. Below the subtitle, the text "This product is registered to:" is followed by two text input fields. The first field is labeled "Name:" and contains the text "John Smith". The second field is labeled "Company:" and contains the text "iSpring". At the bottom of the main content area, there is a checkbox labeled "Attempt to activate my license online now" which is currently checked. At the very bottom of the dialog box, there are four buttons: "< Back", "Next >", "Cancel", and "Help". The "Next >" button is highlighted with a dashed blue border, and a mouse cursor is pointing at it.

Enter Registration Details
These registration details will be displayed in your iSpring product

This product is registered to:

Name: John Smith

Company: iSpring

< Back Next > Cancel Help

After successful activation, you will see the number of remaining activations and the total amount of the allowed activations for your license.

Manual Offline Activation

To perform offline activation:

1. Clear the **Attempt to activate my license online now** checkbox, enter your registration information and click **Next**.

The screenshot shows the 'Enter Registration Details' step of the iSpring TalkMaster Activation Wizard. The window title is 'iSpring TalkMaster Activation Wizard'. Below the title bar, there's a sub-header 'Enter Registration Details' with a key icon and a note: 'These registration details will be displayed in your iSpring product'. The main area is titled 'This product is registered to:' and contains two text input fields: 'Name:' with 'John Smith' and 'Company:' with 'iSpring'. At the bottom, there is a checkbox labeled 'Attempt to activate my license online now' which is currently unchecked and highlighted with a red oval. Below the checkbox are four buttons: '< Back', 'Next >' (highlighted with a blue border and a mouse cursor), 'Cancel', and 'Help'.

2. Choose **Activate the license manually** and click **Next**.

The screenshot shows the 'License Activation' step of the iSpring TalkMaster Activation Wizard. The window title is 'iSpring TalkMaster Activation Wizard'. Below the title bar, there's a sub-header 'License Activation' with a key icon and a note: 'Select one of the following ways to activate the license'. The main area contains three radio button options: 'Activate the license via the Internet now (recommended)' with a description 'The activation process requires active Internet connection and usually takes a few seconds.', 'Activate the license manually' (selected with a black dot and highlighted with a red oval) with a description 'Use manual activation when no Internet connection is available.', and 'Activate the license later' with a description 'It is necessary to activate your license within 3 days. When this period expires, an evaluation watermark will be added to generated simulations until the license is activated.' At the bottom are four buttons: '< Back', 'Next >' (highlighted with a blue border and a mouse cursor), 'Cancel', and 'Help'.

3. Send a license activation request with your License request code and License key via email to the Support Team. After you receive a **License activation code** from the iSpring Support Team, paste it into the corresponding field and click **Next**. Manual activation requests are usually processed within one business day.

Manual License Activation

Step 1

To activate your license manually you need to send the license request code and your license key to iSpring Support Team.

License request code:

License key:

Step 2

Please enter the license activation code you received from iSpring Support Team and click Next.

License activation code:

Activation process should be complete within 3 days after you entered the license key. If the license is not activated within this period, an evaluation watermark will be added to your simulationzses.

The license activation binds the product to a given computer and its operating system. As the number of the allowed activations is limited, you should [deactivate a previously activated license](#) in case you want to reinstall the operating system or activate the license on another computer. This way you will not lose your activations.
