Adding a User to a Group

You can add a user to a group by sending the POST request to the following URL: /group/<group_id>/member.

Permission to run the request: Account Owner, Administrator, Organization Administrator.

Request Headers

Parameter	Description
X-Auth-Account-Url (required)	Base URL of the account, e.g. http://myaccount.ispringlearn.com
X-Auth-Email (required)	Administrator e-mail address.
X-Auth-Password (required)	Administrator password.
X-User-Id (required)	ID of the user, whom you want to add to the specified group.

After the request has been completed, the system returns the response with Code 201.

Possible Response Codes

Code	Text	Description
404	Unknown user	The specified user hasn't been found.
404	Unknown group	The specified group hasn't been found.
403	Permission denied	You do not have permission to edit the group.
403	User already group's member	A given user already belongs to the specified group.
400	Bad Request	The system failed to process the request, because it did not contain all necessary parameters.
403	Can't add user into group from another organization	You are not allowed to add a user into a group from another organization.
201	Created	A given user has been added to the specified group.
