

Languages

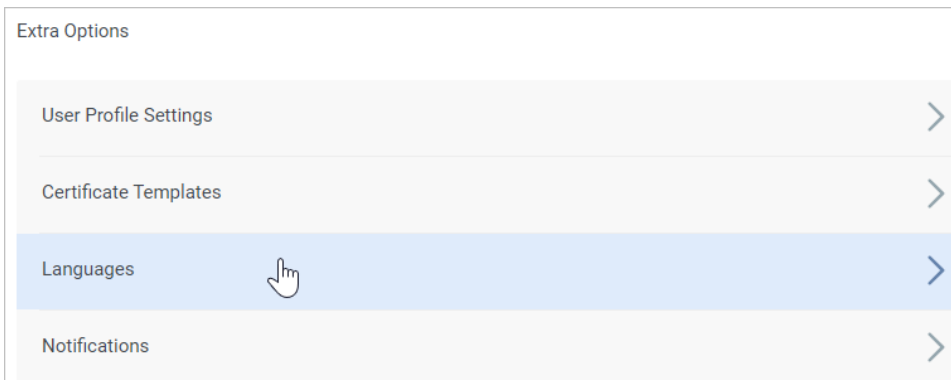

If your students or employees live in different countries and speak different languages, select a language version of your user portal. Currently, iSpring Learn includes 30 languages: English, Russian, Spanish, Catalan, Simplified Chinese, Traditional Chinese, Japanese, Portuguese, German, Mongolian, French, Italian, Dutch, Finnish, Ukrainian, Norwegian, Polish, Azerbaijani, Kazakh, Romanian, Korean, Bulgarian, Czech, Uzbek, Danish, Greek, Arabic, Swedish, Indonesian and Hungarian.

To start managing languages in your iSpring Learn account:

1. Open the **Settings** menu and click the **Additional Options** tab.

2. Next, select **Languages**.

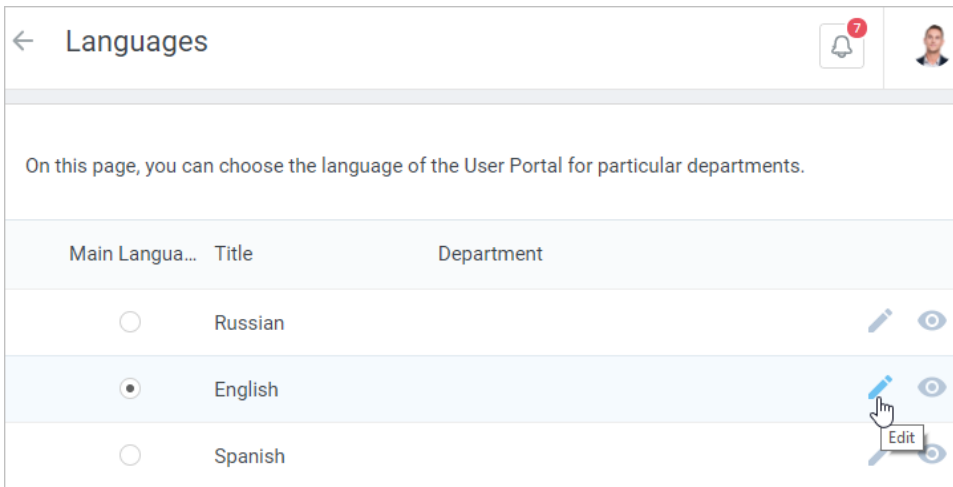

Learn how to:

- [Set up a language version for a department](#)
- [Select a default language version](#)
- [View a language version](#)

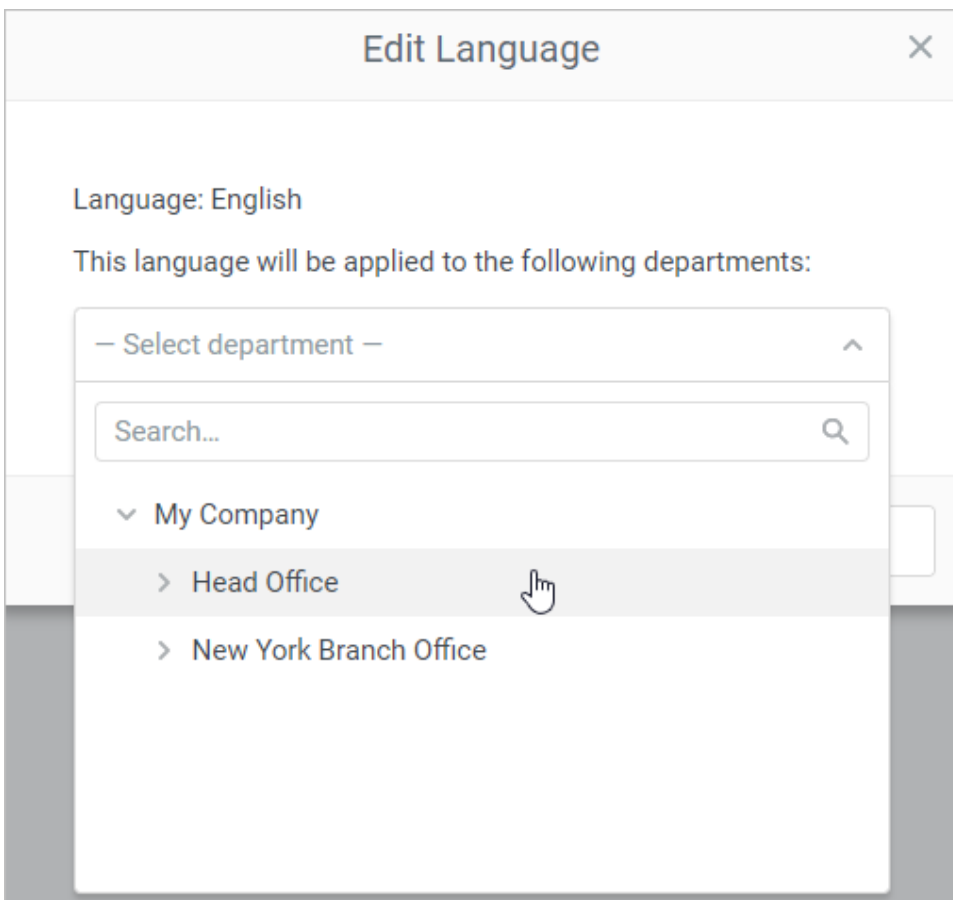

Selecting a Language for a Department

To choose the language version of the User Portal for a specific department:

1. Click the pen icon next to the language version.

2. In the **Edit Language** window, select a department or multiple departments that will see the User Portal in the selected language.

3. Click **Save**.

Edit Language

Language: English

This language will be applied to the following departments:

Head Office

New York Branch Office

— Select department —

Save

Cancel

Choosing Default Language

The default language version is displayed to all users unless a different language is selected for their department. The primary default language version is English.

You can select the default language in the **Main Language** column.

Languages

7

On this page, you can choose the language of the User Portal for particular departments.

Main Language...	Title	Department
<input type="radio"/>	Russian	<div><div></div><div></div></div>
<input checked="" type="radio"/>	English	<div><div></div><div></div></div>
<input type="radio"/>	Spanish	<div><div></div><div></div></div>

Previewing Languages

You can easily preview the language version by clicking on the **Preview** icon.
