

Media Properties

Once you added a supplementary media file to a question, you can specify additional options for it. You can limit the number of playbacks and define whether a user will be able to see the playback controls when watching or listening to a media file .

To set media properties:

- Click the **Properties** icon in the corresponding tab (Picture, Audio, Video)

Image Properties

Option	Description
Zoom Picture	This option allows users to zoom in the picture added to a question. Users just have to click a picture to enlarge it. To disable zooming, uncheck the Zoom picture checkbox. The Zoom icon won't be displayed on such pictures.

Audio Properties

Option	Description
Play audio in the background	Select this option to play the added audio sound in the background of a question. The audio player will be hidden. Note: Since there are no visible buttons to start or pause the playback of an audio file, the playback will start automatically, while the number of playbacks will be limited to 1.
Display playback controls	Select this option to make audio player buttons available to a quiz taker.
Start playback automatically	Use this option to start playing an audio file automatically when a user goes to a question.
Limit the number of playbacks	Activate this option to specify how many times an audio file can be played. You can enter any value between 1 and 99. If a user is supposed to play a file without limitations, leave the option unchecked.

Video Properties

Option	Description
Enable playback controls	Select this option to make video player buttons available to a quiz taker.
Start playback automatically	Use this option to start playing a video file automatically when a user goes to a question.
Limit the number of playbacks	Activate this option to specify how many times a video file can be played. You can enter any value between 1 and 99. If a user is supposed to view a file without limitations, leave the option unchecked.

Flash Properties

Option	Description
Start playback automatically	Use this option to start playing a Flash file automatically when a user goes to a question.
