Password protection is OFF.  
You can view the content without entering a password.  
Change password

Sharing is ON.  
It is allowed to share this content when viewing it.

Download is ON.  
It is allowed to download this content when viewing it.

To check the settings of each content item, there's no need to open the Sharing window again.

Just select the required item in the content list and look at the Sharing section on the sidebar. Here you can quickly copy the short link to the item and check if the password is set up.
