Publishing to iSpring Learn

Once you have finished editing your quiz, upload it to iSpring Learn, a platform for delivering distance learning to employees and students with online testing and webinars.

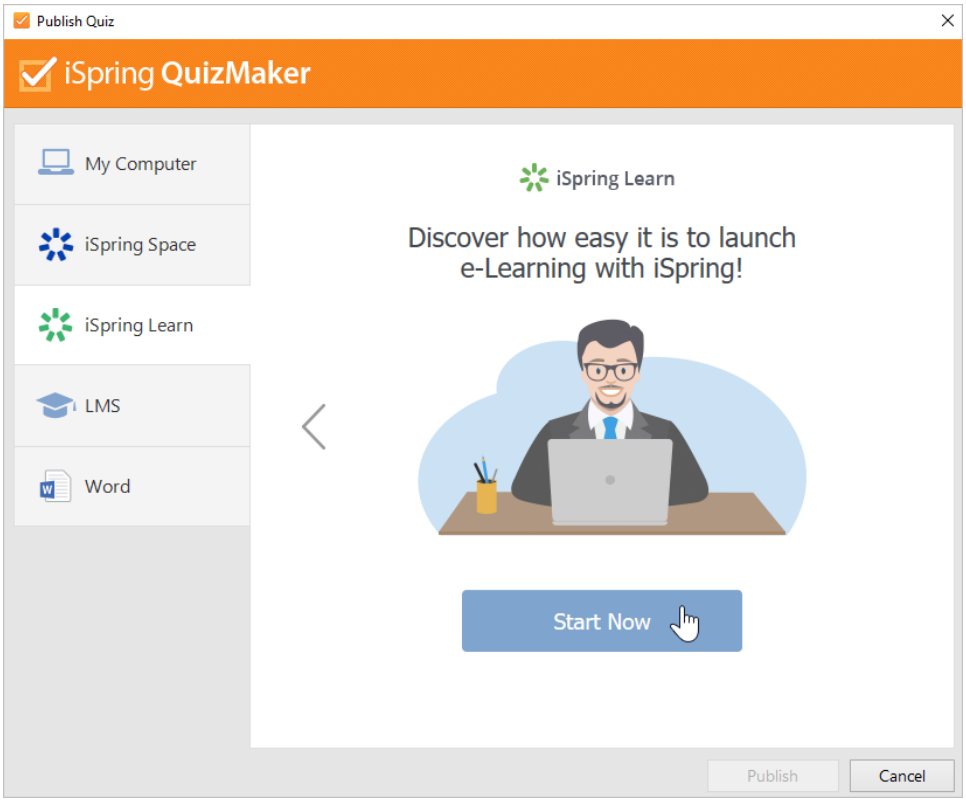

Learn how to manually upload a content item to iSpring Learn if your computer is disconnected from the Internet or online publishing doesn't complete because of an antivirus program or a proxy server error.

To publish your quiz to iSpring Learn:

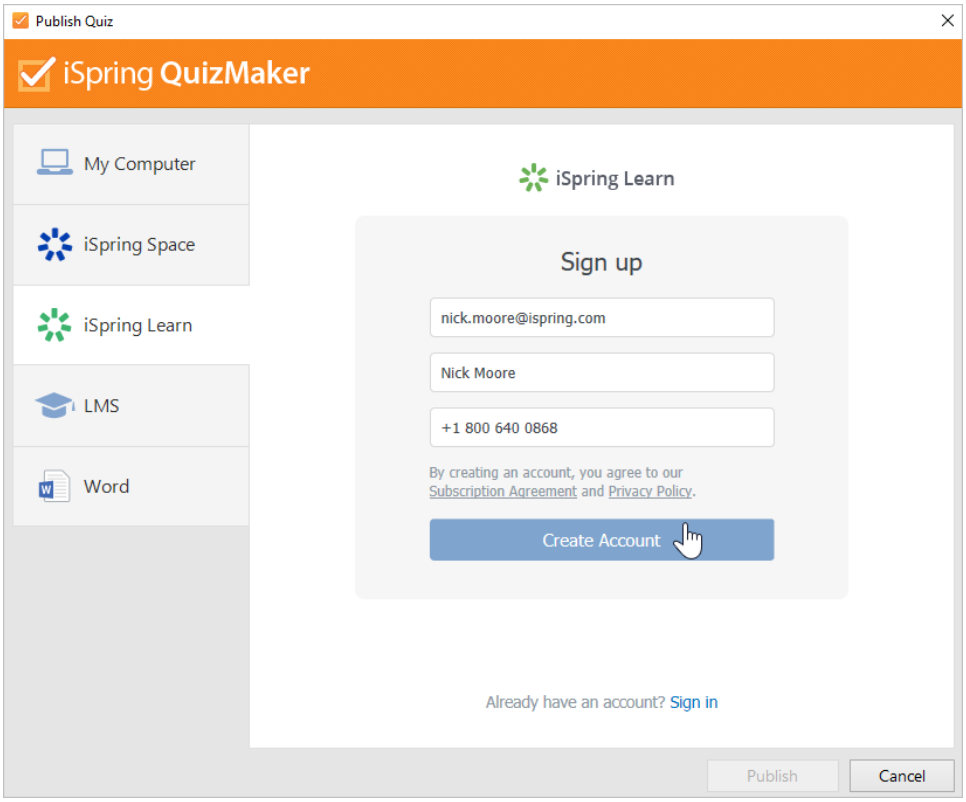

1. Click **Publish** on the iSpring QuizMaker toolbar.

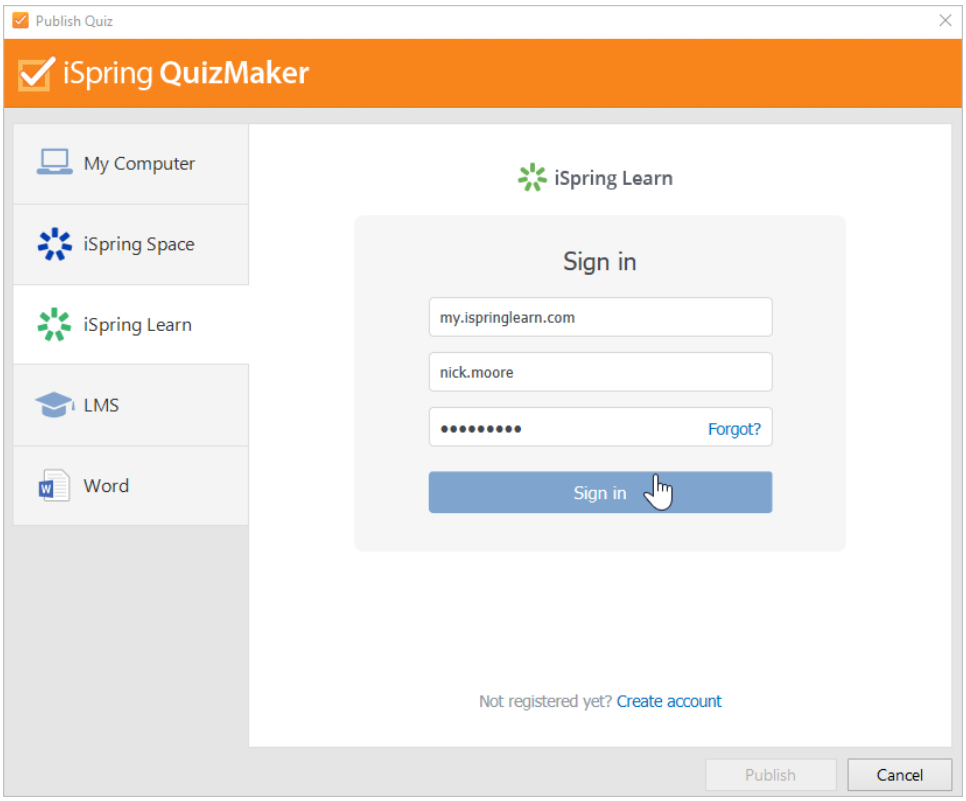

2. Choose the **iSpring Learn** tab.
   Browse through the picture gallery and click **Start Now**.

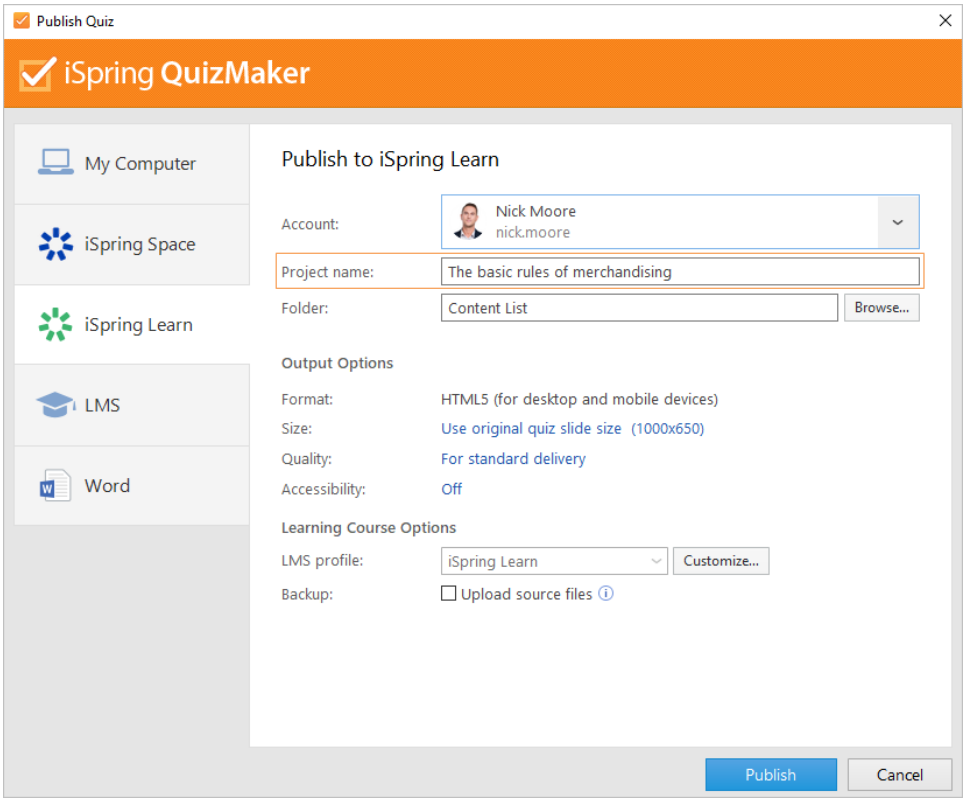

3. Create a new free iSpring Learn account right in the publishing window. Enter your email, name, and phone number, and click **Create Account**. You will receive an email with your login details.

4. If you are already registered, click the **Sign in** link at the bottom of the window and enter your email and password for your iSpring Learn account. Then click **Sign In**. The specified data will be saved in iSpring QuizMaker, and you do not have to enter it every time.

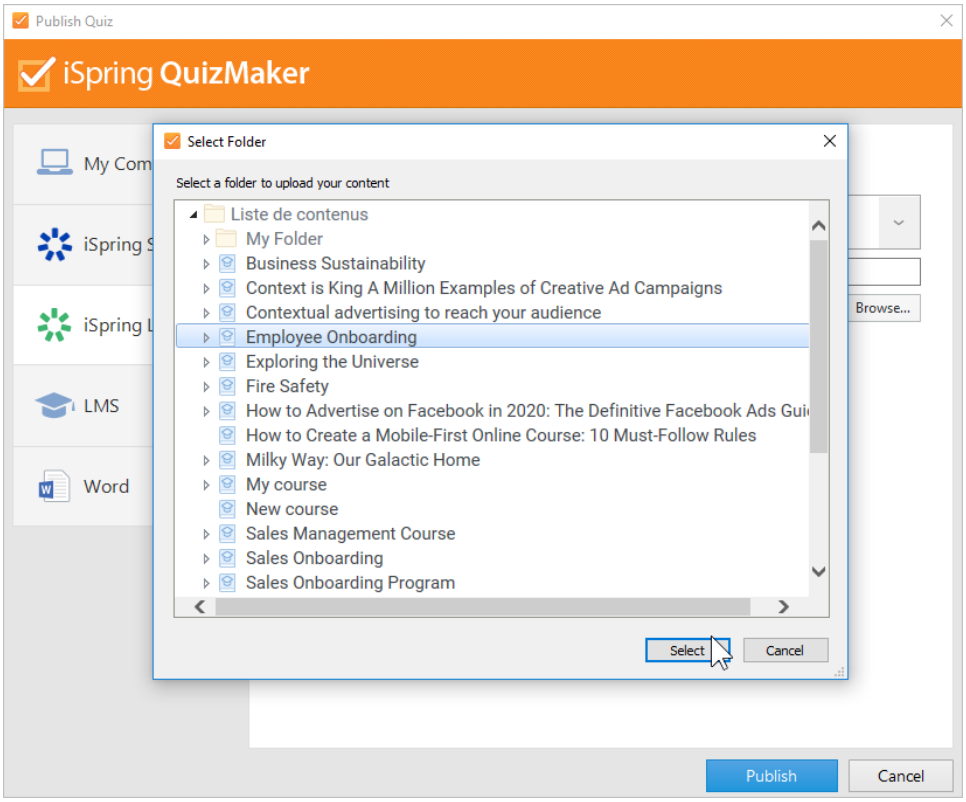

5. Enter the title of the content item in the **Project name** field. By default, the title is the same as that of the PowerPoint presentation.

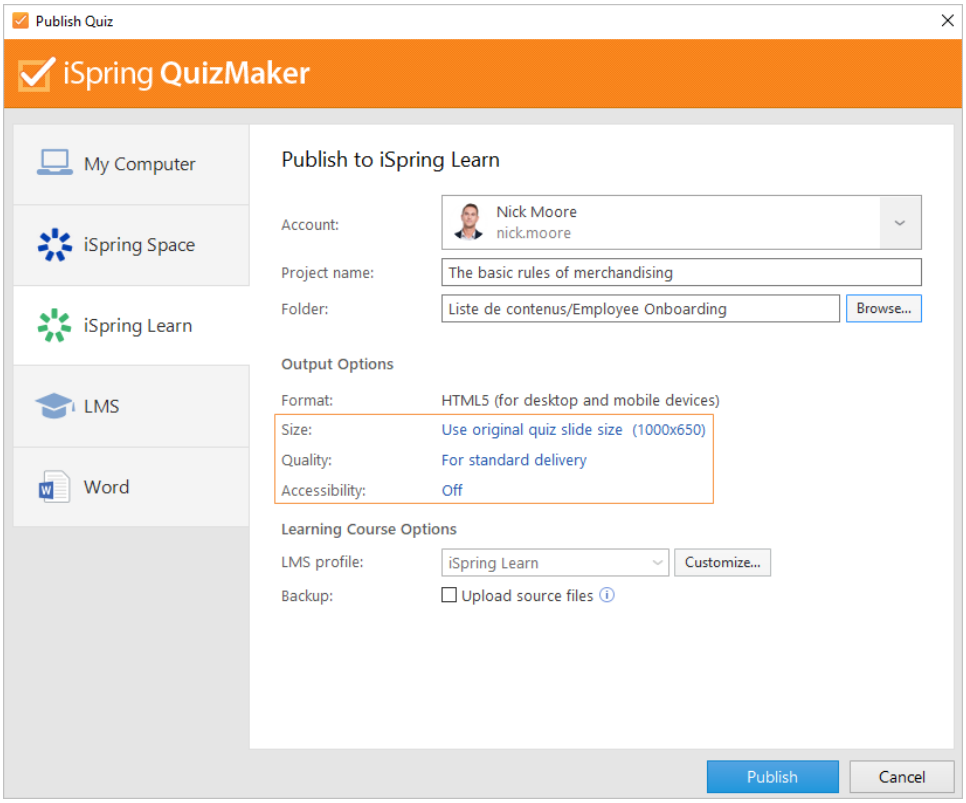

6. Then, click **Browse...** to the right of the **Folder** field and choose a course you want to upload your content to. After that, click **Select**.

   If you want to replace one of the course modules, mouse over that module and click **Select**. Learn more about the module replacement feature in the Replacing Content while Publishing article.

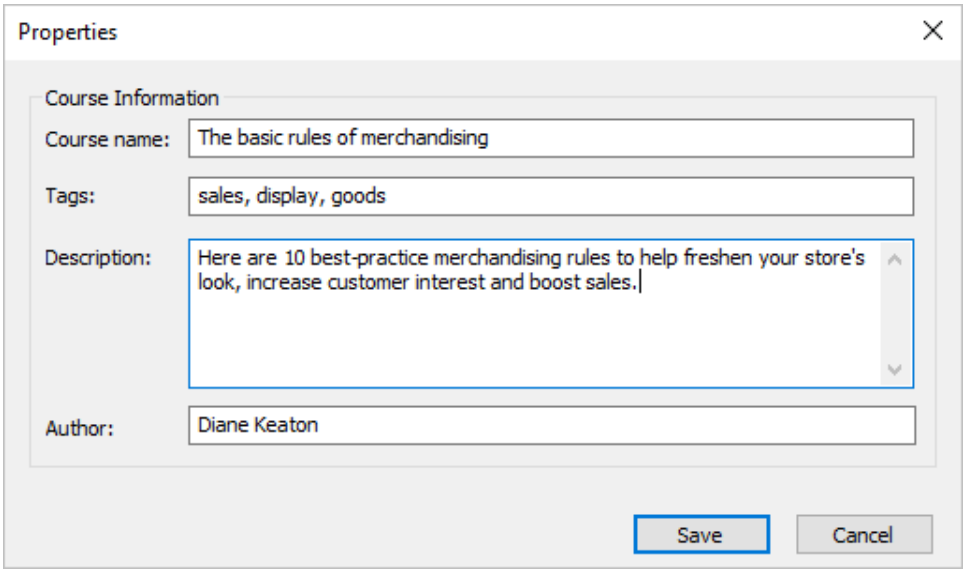

7. Then, set up output options:
   - Specify how the quiz will behave in a browser
   - Select the quality level of images, audio, and video files
   - Publish the quiz in the accessible mode

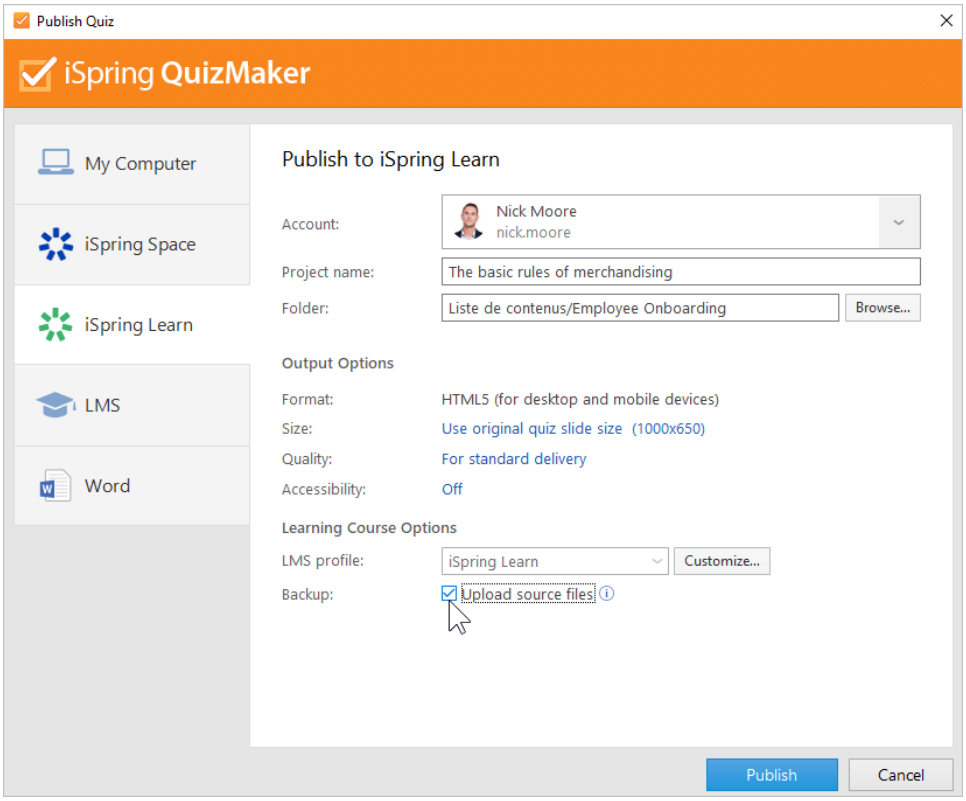

8. Next, specify the upload options.
   • Click the **Customize** button next to the **Profile** menu in which iSpring Learn is selected as the default.

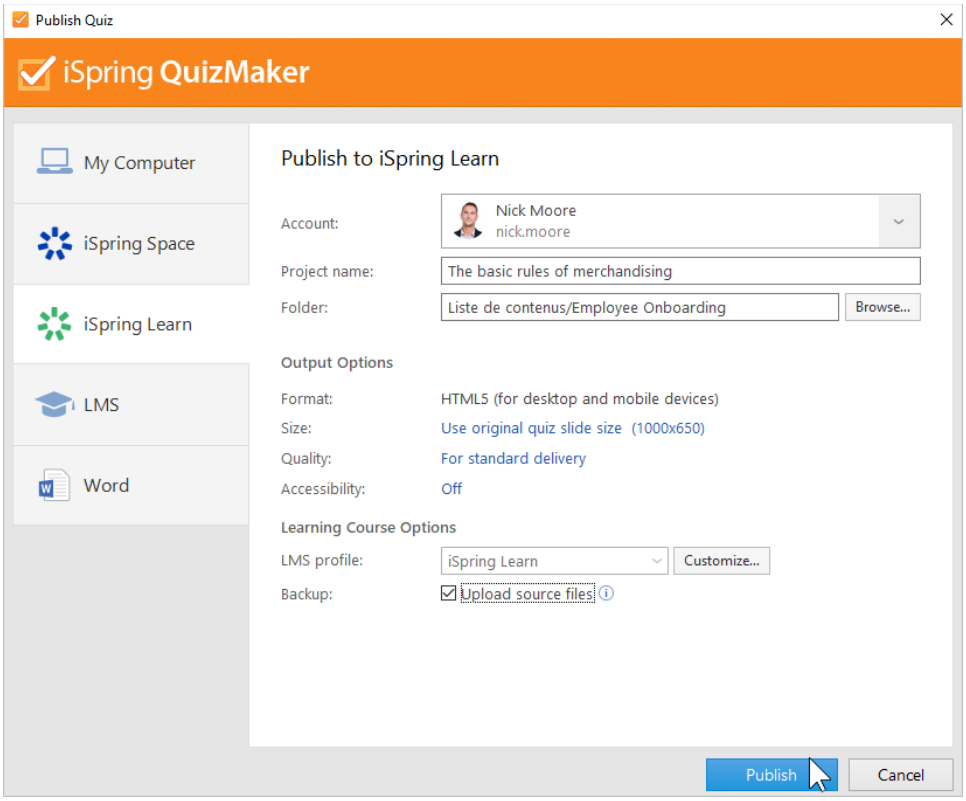

In the opened window, add tags, description, and the quiz author, and set up progress and completion parameters.

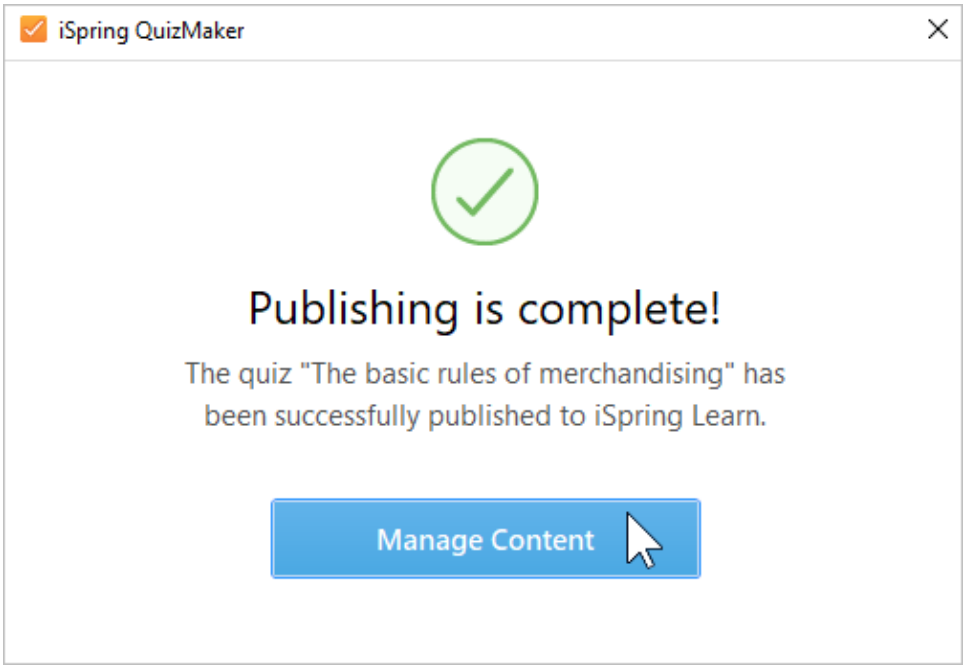

• In the **Backup** field, select **Upload source files** so that you and your administrators will be able to download the source files of the quiz in iSpring Learn.

9. Finally, click the **Publish** button.

10. When the publishing process is successfully completed, a new window will open. To open the published quiz in the iSpring Learn interface, click **Manage Content**.

11. You will see the quiz added to a course in your iSpring Learn account.
