# Branching

iSpring QuizMaker lets you control the order of questions in quizzes depending on students' answers.

To enable branching for a given question:

1. In the Questions pane, select a question you want to set branching for.
2. Specify what to do for each outcome of the question (**Correct**, **Incorrect**, **Try Again**).

- **Next Slide** - The user will be shown the next slide/question in the quiz.
- **Finish Quiz** - The quiz will be ended, and the user will be taken to the Results screen.
- **Specified Slide** - The user will be taken to the specified slide with a question or additional information.
- **Beginning of Group** - The user will be shown the first question of the group.
- **Random Pool** - If you have enabled randomization for a group, the user will see the first question from a random selection of questions in the group.

## ranching by Choice

For Multiple Choice questions, you can set up branching not only based on results, but also individual answer choices. To do this, in the **Slide Options** section, select the **By Choice** option from the **Branching** dropdown.

In the **Branching** column next to each answer choice, select an action or slide to branch to after the user answers the question.

**Multiple Choice Question**

There's a client who often has business trips and Skype meetings.

What kind of headphones would you recommend he use?

**Choices**

| Correct | Choice | Branching |
|---|---|---|
| ○ | Sennheiser HD 2.30G | → ⌄ ✕ |
| ○ | Philips SHE 4205BK | |
| ⦿ | JBL  E55 BT | |
| | Type to add a new choice | |
