iSpring Cam Pro Guide

iSpring Cam Pro is an advanced video studio for creating video training, which is included in the updated version of iSpring Suite.

With iSpring Cam Pro, you can record screencasts and quickly train new employees. It's easy to record not only screencasts but also video training with experts. Complement the video with titles and captions that cover the basic topics to help employees memorize the material, add multiple videos on different tracks, add audio, and complement the video with text or graphics.

To learn about all the features of the new video studio, see this short video tutorial for iSpring Cam Pro.
