

Size Settings

When publishing, the size of the slides in the course will be the same as specified in the PowerPoint settings. You can choose how the published course will be displayed in a browser. To do this, click on the link in the **Size** field in the **Publish Presentation** window.

Option	Description
--------	-------------

Fit course to browser window	The size of the course is adjusted to the size of the browser window.
Use original slide size	The original course size is used, which corresponds to the dimensions specified in PowerPoint.
Scale slide to exact size	Specify the size of the slide as a percentage, for example, 75% of the original size. If the browser window is smaller than the original size of the slide, the size will decrease and adjust to the size of the window.
